Learning about the AAR Embargo/OPSL Notes and Permit System

This document describes how to use the AAR Embargo and Open & Prepaid Station List (OPSL) Notes and Permit Management System (AAR Embargo System) through the following major sections:

- [Getting Started](#) describes how to access and log in to the system.
- [Working with Embargoes](#) describes how to perform common embargo tasks, such as issuing, searching, editing, deleting, and approving embargoes.
- [Managing Embargo Permits](#) describes how to obtain a permit to bypass an embargo.
- [Working with OPSL Notes](#) describes how to perform common OPSL Note tasks, such as issuing, searching, editing, deleting, and approving OPSL Notes.
- [Managing OPSL Note Permits](#) describes how to obtain a permit to bypass an OPSL Note.
- [Using Administrative Tools](#) describes tools available for working with embargoes and OPSL Notes, including contacts, subscriptions, geographic templates, FTP profiles, and an EDI 824 viewer.

A glossary and index follow the major sections.

Overview

The AAR Embargo System supports the following two important rail industry functions:

- **Embargo and Permit Management**, which is covered under best business practices in AAR Circular TD-1. This circular, accessible through the Embargoes menu, governs the issuance of embargoes and should be reviewed by railroad embargo officers when issuing a new embargo or amending an existing embargo.
- and
- **OPSL Notes and Permit Management**, which has its own set of rules and guidelines (accessible through the OPSL Notes menu).

An **embargo** is a *temporary* method of controlling traffic movements when, in the judgment of the serving railroad, something threatens congestion, accumulation, or otherwise interferes with operations, such as track, bridge, or other physical impairments that warrant restrictions. Embargoes may contain a provision for a permit to provide controlled movement of traffic to an embargoed destination.

Note: Embargoes expire after one year. A carrier can reissue an embargo if the issue is not resolved within a year; however, an OPSL Note is a better option for long-term issues.

The AAR Embargo System enables railroads to issue, amend, and cancel an embargo. The system also enables a railroad user with assigned permissions to grant a permit (or multiple permits) for specific shipments to proceed to an embargoed destination. The system allows for search and

retrieval by embargo number and/or embargo attributes such as Standard Transportation Commodity Codes (STCCs), State/Province, Freight Station Accounting Codes (FSACs), City Locations, or Patron Names. Embargoes may be made effective immediately for severe conditions, but generally, embargoes require a 48-hour waiting period.

An **OPSL Note** is a *permanent* method of identifying stations which, due to operational issues such as clearance, weight, capacity, etc., require controlled traffic movement. OPSL Notes may contain a provision for a permit to provide a controlled movement of traffic to a specific station.

The AAR Embargo System enables a railroad to issue, amend, and cancel an OPSL Note. The system also enables a railroad user with assigned permissions to grant a permit(s) for specific shipments to proceed to a station with notes in the OPSL.

Note: All OPSL Notes are *not* created and maintained in the AAR Embargo System. This system does not include all notes published in the “Open & Prepaid Station List” but only includes those notes that impact rail shipment movement associated with operational issues such as bridge, clearance, or weight restrictions. OPSL Notes are not Embargoes.

This user guide assists users in navigating the interface, performing system procedures, and understanding the meaning of fields.

System Requirements

For information about the system requirements of Railinc web applications and for information about downloading compatible web browsers and file viewers, refer to the [Railinc UI Dictionary](#).

Accessing the Railinc Customer Success Center

The Railinc Customer Success Center provides reliable and timely high-level support for Railinc customers. Representatives are available to answer calls and respond to emails from 7:00 a.m. to 7:00 p.m. Eastern time, Monday through Friday, and provide on-call support via pager for all other hours to ensure support 24 hours a day, 7 days a week. Contact us toll-free by phone at 877- RAILINC (1-877-724-5462) or send an email directly to csc@railinc.com.

Getting Started

If you just want to *view* embargos and OPSL Notes and Permits, you do not need to log in to the application. Click [here](#) or you can also access it through the [Railinc Portal](#) > [Products & Services](#) > [AAR Embargo System](#) page in the **Related Links** section.

To use the system with more than view functionality, access the AAR Embargo System by using Railinc Single Sign-On (SSO), a web application that provides convenient access to a variety of Railinc products. To get started, go to the Railinc Portal at <https://public.railinc.com> and select the **Customer Login** in the top right corner. Enter your user ID and password in the fields and select **Sign In**.

Notes:

1. If you do not already have a Railinc SSO user ID and password, refer to the [Railinc Single Sign-On User Guide](#). Once you have access to Railinc SSO, you must request access to the AAR Embargo System within SSO.
2. If you do not have access to the AAR Embargo System, request access by following instructions in the [Railinc Single Sign-On User Guide](#). See [Learning about User Roles](#) below for information about the available levels of access. When you have received e-mail notification confirming your access, you can login and begin using the AAR Embargo System.

Learning about User Roles

Your assigned user role determines what functions you can perform. User roles are assigned by Railinc or by your company administrator through the Single Sign-On interface ([Exhibit 1](#)).

Exhibit 1. SSO Request Permission

AAR Embargo/OPSL Permit System

AAR Embargo/OPSL Notes and Permit System allows a railroad to issue, amend and cancel an embargo or OPSL Note. It allows to search by Embargo or OPSL Note Number and attributes like Commodities (STCC), State/Province, Stations (FSAC), locations etc.

1 Select Roles

2 Confirm

3 Done

☐ Embargo Officer (MARK required)
Embargo officer who can issue an Embargo on behalf of his/her road.

☐ Embargo Party to the Waybill
Waybill Shipper, consignee or care of party who need to request permits.

☐ Embargo Permit Officer (MARK required)
Permit Officer of a road who can issue permits on behalf of his/her road.

☐ OPSL Note Officer (MARK required)
Same as the role Road Embargo Issuer. Issue (request for) OPSL note on behalf of his/her road; Maintain a list of contact persons, who would be notified when a OPSL note is issued.

☐ OPSL Note Permit Officer (MARK required)
Same as the Embargo Permit Officer role. Accept/reject/cancel permit requests for authorized road; Cancel permits for authorized road; Create/import/export permits for authorized road; View permits for authorized road.

Return

Next

The following user roles can be assigned to users of the AAR Embargo System:

- **Embargo Officer** – Embargo officer who can issue an Embargo on behalf of his/her road.
- **Embargo Party to the Waybill** – Waybill Shipper, consignee, or care of party who needs to request permits.
- **Embargo Permit Officer** – Permit Officer of a road who can issue permits on behalf of his/her road.
- **OPSL Note Officer** – Same as the Embargo Officer role. This role can issue OPSL notes on behalf of his/her road and can maintain a list of contact persons who are notified when an OPSL note is issued.
- **OPSL Note Permit Officer** – Same as the Embargo Permit Officer role. This role can accept/reject/cancel permit requests for authorized roads; cancel permits for authorized roads; create/import/export permits for authorized roads; and view permits for authorized roads.

Note: Security embargo refers to an emergency or very severe issue as directed by the AAR. Security embargo access is restricted to authorized personnel.

Logging In

To log into the AAR Embargo System:

1. Open your internet browser and enter <https://public.railinc.com> to open the Railinc website.
2. Select the **Customer Login** link in the upper right of the page. The Account Access page is displayed.
3. Enter your User ID and Password. Select **Sign in**. The Railinc Launch Pad is displayed.
4. Under My Applications, select **AAR Embargo System**. The AAR Embargo System Home page is displayed ([Exhibit 2](#)).

Logging Out

Select the **Sign Out** link to end an AAR Embargo System session and return to the SSO Login Page.

If multiple SSO applications are open (in separate browser windows), and you want to close only one, close the unwanted session window by selecting the **X** at the top right of the window or pressing **Alt +F4**. Do NOT select the **Sign Out** link—this would end the entire Single Sign-On session (and *all* open SSO applications).

If the user session has been idle for more than 30 minutes, a warning message is displayed, and you must log back in.

Viewing the Home Page

The Home page is displayed once you successfully log in to the AAR Embargo System ([Exhibit 2](#)).

Exhibit 2. AAR Embargo System Home Page

The screenshot displays the AAR Embargo System Home Page. At the top, there is a dark header bar with the RAILINC logo on the left, the text "AAR Embargo System" in the center, and a user profile section on the right showing a name, the text ": RAIL", and links for "Launch Pad" and "Sign Out". Below the header is a navigation bar with a light gray background, containing links: "Home", "Embargoes", "Embargo Permits", "OPSL Notes", "OPSL Note Permits", "Dashboard", "Tools", and "Help". The main content area has a white background and is divided into sections. The first section is titled "Welcome to AAR Embargo/OPSL Notes And Permit System" in red text, followed by a paragraph of welcome text. The second section is titled "Embargo and Permit Management" and contains three paragraphs of text explaining the system's purpose and functionality. The third section is titled "OPSL Note and Permit Management" and contains two paragraphs of text explaining the system's purpose and functionality.

Welcome to AAR Embargo/OPSL Notes And Permit System

Welcome to the AAR Embargo and Official Railroad Station List (OPSL) Permit Management Systems. This website is intended for two unique functions in the rail industry. One function is Embargo and Permit Management that is covered under best business practices in AAR Circular TD-1 which can be located under the Embargo TAB. The second and unique function is Official Railroad Station (OPSL) Notes and Permit Management.

Embargo and Permit Management

An Embargo is a temporary method of controlling traffic movements when in the judgment of the serving railroad threatens congestion, accumulation or other interference with operations such as track, bridge or other physical impairments that warrant restrictions. Embargoes may contain a provision for a permit to provide a controlled movement of traffic to an embargoed destination.

The Embargo and Permit functions will allow a railroad to issue, amend and cancel an embargo. Another feature of the Embargo Permit Database System will allow a railroad user with assigned permissions to grant a permit(s) for specific shipments to proceed to an embargoed destination.

The database allows for search and retrieval by Embargo Number and/or embargo attributes like Standard Transportation Commodities (STCC), State/Province, Freight Station Accounting Code(s) (FSAC), City Locations or Patron Names, etc. For specific information on Embargo procedures click on the link to AAR Circular TD-1. You may also access HELP text and the AAR Embargo/OPSL Notes and Permit System User Guide for additional information. For specific questions contact Railinc Customer Support at csc@railinc.com or 1-877-724-5462.

OPSL Note and Permit Management

An OPSL Note is a permanent method of identifying stations which, due to operational issues such as clearance, weight, capacity, etc., require controlled traffic movement. OPSL Notes may contain a provision for a permit to provide a controlled movement of traffic to a specific station.

The OPSL Note and Permit functions will allow a railroad to issue, amend and cancel an OPSL Note. Another feature of the OPSL Note Permit Database System will allow a railroad user with assigned permissions to grant a permit(s) for specific shipments to proceed to a station notes in the OPSL.

The Application Menu, shown at the top of each AAR Embargo System page, provides access to the following functions:

Menu Item	Function
Home	Navigate to the AAR Embargo System Home page.
Embargoes	Issue embargoes, search for embargoes, view pending embargoes, create and view embargo templates, search for and view embargo and permit officers, and view the TD1 Circular (which governs the placing and handling of embargoes).
Embargo Permits	Request and search embargo permits, search embargo permit requests, administer and create embargo permits, and search for and view embargo and permit officers.
OPSL Notes	Issue OPSL Notes, search for OPSL Notes, view pending OPSL Notes, create and view OPSL Note templates, search for and view OPSL Note and permit officers, and view the OPSL Note rules and guidelines.
OPSL Note Permits	Request and search OPSL Note permits, search OPSL Note permit requests, administer and create OPSL Note permits, and search for and view OPSL Note and permit officers.
Tools	Create and search for contacts, create and view geographic templates, create and view subscriptions, search and view audit logs, search and view outbound EDI 824 messages, and view EDI 824 error codes and descriptions.
Help	Access the online documentation, including the user guide (this document), a list of frequently asked questions, and a listing of EDI 824 error codes and descriptions.

Notes:

- Menu content may vary depending on your role-based permissions ([Exhibit 1](#)).
- For detailed instructions about using the Railinc interface elements such as menus, calendar tools, and drop-down text boxes, refer to the [Railinc UI Dictionary](#).
- Mandatory fields are marked with an asterisk (*).

Working with Embargoes

When you select **Embargoes** on an AAR Embargo System page, the Embargoes menu is displayed ([Exhibit 3](#)).

Exhibit 3. Embargoes Menu

[Exhibit 4](#) describes the tasks available on the Embargoes menu.

Exhibit 4. Embargoes Menu Items and Descriptions

Menu Item	Description
Issue Embargo	Enables you to create an embargo that temporarily restricts rail traffic from a specified area. Embargoes are not in effect until they are approved by the AAR.
Search Embargo	Enables you to search for existing embargoes. Once results are located, you can perform additional functions.
View Pending Embargoes	Enables you to view a list of draft, pending, and rejected embargoes for your mark.
Create Embargo Template	Enables you to create an embargo template that is prepopulated with regularly used information.
View Embargo Templates	Enables you to view and apply the embargo templates that you have created.
Search Embargo/Permit Officers	Enables you to search for embargo officers for all marks.
TD1 Circular	Enables you to view the AAR Circular TD-1, which governs the placing and handling of embargoes.

Issuing Embargoes

Newly issued embargoes remain in **Pending** status until approved by the AAR Administrator.

The following general rules apply when issuing an embargo:

- Road embargo issuers can only issue embargoes for their own roads.
- An embargo administrator can issue security embargoes for any road.
- The default **Request Date** is the date the embargo is issued. The **Effective Date** is an estimation and is calculated as 48 hours after the approval/request date. The default **Expiration Date** is one year from the current date and is editable for Embargo Officers and Admin. The **Expiration Date** must be more than 30 days, but one year or less from the **Request Date**.
- Embargo numbers are generated by the system at the time of issuance.

Use the following procedure to issue a new non-security embargo:

1. Select **Embargoes > Issue Embargo**. The Issue Embargo page is displayed ([Exhibit 5](#)).

Issue Embargo

2. Complete the available described input fields:

- Op Station Notice:** A pop-up box explains the Operating Station Notice. Select **OK** to close the pop-up. Checking this only serves as a notice of intent. No waybills are matched, or EDI 824 messages issued. An email is sent to affected parties.
- Embargo Status:** The status for a new embargo is **New** until it is submitted for approval. When issued, the status becomes **Pending** unless it is saved as a **Draft**.
- Issuing Road:** Use the drop-down to select the road issuing the embargo. Road embargo issuers can only issue embargoes for their own road.
- Effective Immediately:** Check to make the embargo effective immediately following approval. By not checking the box, the embargo will become effective after 48 hours. Please note the following business rule regarding the proper use of this option:
 - [Circular TD-1](#) statement on “effective immediately” in section IV-A.
 - An embargo declared as being effective immediately may not be issued for other physical impairments or for operational impairments of any kind.

- An embargo declared as being effective immediately becomes effective as soon as the embargo administrator approves the embargo.
- e. **Effective Date:** The date the embargo becomes effective.
- f. **Request Date:** The date the embargo is requested; defaults to current date.
- g. **Expiration Date:** Non-editable field; defaults to one year from the current date.
- h. **Allow Permits:** To allow permits to the issued embargo, select **Yes**, otherwise select **No**. When **Yes** is selected, the **Permit Contact Email/URL** field appears.
- i. **Allow Admin Issued Permits:** Check this box to allow admin issued permits. This option is only available for users with Embargo Officer permissions for the issuing road and can be selected when **Allow Permits** is **No**.
- j. **Bypass Local Waybills:** Select **Yes** or **No** to determine if the embargo should bypass local waybills (originates and terminates on your road); no EDI 824 is issued.
- k. **Embargo Contact Email:** Enter the embargo contact's email address.
- l. **Permit Contact Email/URL:** Field appears when **Yes** is selected for Allow Permits. Enter the permit contact's email address or website link.
- m. **Include Empty Revenue Cars:** Select to include empty revenue car waybills in the embargo. If empty, the equipment is applied against the embargo just like a load.
- n. **Include All Empty Cars:** This is used only for specific circumstances such as weather conditions, derailment, bridge out of service, catastrophic events, spontaneous labor action, civil activism, congestion/accumulation congestion/accumulation - railroad caused, or congestion/accumulation - customer caused. When this field is selected with **Congestion /Accumulation**, **Congestion/Accumulation - Railroad Caused**, or **Congestion/Accumulation - Customer Caused** as the **Cause** (see [Appendix B. Embargo/Waybill Evaluation Guidelines](#) for details), the following are required to successfully issue an embargo:
 - The embargo needs to target a specific customer and location. This means the **Geography** section ([Exhibit 10](#)) must have one or more **Destination** FSACs and/or one or more Interchanges. You cannot target all locations or target all interchanges.
 - If a destination FSAC and an interchange are included, the **AND/OR** option in **Geography** must be set to **AND**.
 - In the **Waybill Parties** section, at least one **CIF** must be included with waybill party designation of **Consignee** or **Care of Party**. When only an interchange is included in the **Geography** section, then **Target All Waybill Parties** can be selected. You cannot **Target All Waybill Parties** with exception CIF's.
- o. **Participating Roads:** Allows a road issuing an embargo to invite other roads to participate in the embargo. Enter one or more road marks. As needed, use the search icon to look up reporting marks.

For the selected Participating Road(s), a button is added to the details of the embargo. The Participating Road will select the **Add/Remove Stations** button and a pop-up

window will appear allowing the Participating Road to search for and enter their own FSACs to be added to the embargo.

- p. **Notes to Participating Roads:** Enter free form notes up to 4000 characters regarding invitation for roads to participate in created embargo. Notes to Participating Roads are emailed to “participating” roads when embargo is issued. Notes cannot be seen by any other roads.
- q. **Min Car Allowed:** Allows you to specify the minimum car count allowed. No 824 is issued when number of cars is more than the specified number and all criteria is not matched.
- r. **Max Car Allowed:** Allows you to specify the maximum car count allowed. No 824 is issued when number of cars is less than the specified number and all criteria is not matched.
- s. **Min Car Allowed and Max Car Allowed:** When both fields are selected, no 824 is issued when number of cars is less or more than the specified numbers and all criteria is not matched.
- t. **Cause:** Use the **Choose a Cause** drop-down field to select the required cause of the embargo (see [Exhibit 6](#)). See Viewing AAR Circular TD-1 for more information. When **Congestion/Accumulation**, **Congestion/Accumulation - Railroad Caused**, or **Congestion/Accumulation - Customer Caused** is selected with **Include All Empty Cars**, see [Include All Empty Cars](#) for requirements.
 - The embargo can be effective immediately if one of these **Causes** are selected and **Effective Immediately** is checked: **Bridge Out of Service**, **Catastrophic Event**, **Civil Activism**, **Derailement**, **Government Ordered Shutdown**, **Spontaneous Labor Action**, and **Weather Conditions**.
 - The embargo will not be effective immediately if one of these **Causes** are selected: **Abandonment**, **Congestion/Accumulation**, **Congestion/Accumulation – Customer Caused**, **Congestion/Accumulation – Railroad Caused**, **Other**, **Prevent Congestion/Accumulation**, **Prevent Congestion/Accumulation – Customer Caused**, **Prevent Congestion/Accumulation – Railroad Caused**, **Track Conditions**, **Track Conditions – Customer Caused**, **Track Conditions – Railroad Caused**, **Weight Restriction**, and **Work Stoppage**.

Exhibit 6. Embargo Cause Drop-down

A screenshot of a web application showing a drop-down menu for selecting an embargo cause. The menu is titled "Cause" and has a search bar with the placeholder text "Cause*". Below the search bar, there is a list of options. The first option is "- Choose a Cause -" with a blue checkmark to its right. Below this, there are several other options: "Abandonment - specify Government Authority", "Bridge Out of Service", "Catastrophic Event", "Civil Activism - specify", "Congestion/Accumulation", and "Congestion/Accumulation - Customer Caused". A vertical scrollbar is visible on the right side of the list.

- u. **Cause Details:** Use this field to further explain the reason for the issued embargo (up to 255 characters).

Note: Government, Other, Weather, and Weight must include an explanation in the **Cause Details** box.

- v. **Notes:** Use this field to further clarify the reasons for the issued embargo or to provide additional relevant information (up to 255 characters).
- w. **Commodity:** Select either to target your embargo for selected or all commodities
 - **Target Select Commodities** ([Exhibit 7](#))

Exhibit 7. Target Select Commodities

A screenshot of a web application showing the "Commodity" section. It has a header "Commodity" and two radio buttons: "Target Select Commodities" (which is selected) and "Target All Commodities". Below the radio buttons, there is a text input field with the placeholder text "Include These Commodities". To the right of the input field, there is a magnifying glass icon.

This is the default option. Use this option to embargo only certain commodities. Specify the STCCs in the **Include These Commodities** field. Specify the 7-digit STCCs (front load with zeros as needed). Use commas to separate multiple entries or copy and paste from a spreadsheet. Specify a range of STCC numbers by entering the beginning STCC, then a dash (-), then the ending STCC in the range. Select the search icon to search for STCCs.

- **Target All Commodities** ([Exhibit 8](#))

Exhibit 8. Target All Commodities

Use this option to embargo all commodities or all except those specified by STCC in the **Except These Commodities** field. Use the available input field to specify the 7-digit STCCs (front load with zeros as needed). Use commas to separate multiple entries or copy and paste from a spreadsheet. Specify a range of STCC numbers by entering the beginning STCC, then a dash (-), then the ending STCC in the range. Select the search icon to search for STCCs.

Exhibit 9. RSSM & TIH/PIH STCCs Lookup (for Officers Only)

Commodity Lookup

- Minimum characters required for STCC is 2
- Minimum characters required for Commodity (Description) is 3
- Commodity (Description) matches are exact. Use * wildcard when uncertain.
- Examples: STCC- 011*, *011* Commodity (Description)-Coal*, *Coal*

STCC: Description:

Include Hazmat?

Clear Search **RSSM & TIH/PIH STCCs**

Number of Commodities: 582

TIH/PIH Values:

- X = TIH/PIH
- Blank = Not TIH/PIH

RSSM Values:

- SP = Security PIH (RSSM)
- SX = Security Explosive (RSSM)
- SR = Security Radioactive (RSSM)
- Blank = Not RSSM

Select All	STCC	Description	TIH/PIH	RSSM

Close Select

Selecting the search icon to include or exclude commodities opens the Commodity Lookup. The **RSSM & TIH/PIH STCCs** button in the Commodity Lookup is available for officers only when issuing embargos, amendments and OPSL notes to provide support when searching for the following car types:

- RSSM - Rail Security Sensitive Materials
- TIH - Toxic Inhalation Hazard
- PIH - Poison Inhalation Hazard

- x. **Geography:** The Geography section provides you a variety of ways to specify the locations that need to be embargoed ([Exhibit 10](#)).

Exhibit 10. Create Embargo—Geography Section

Apply

[\[Create Geography Template\]](#)

Note: For instructions on using the search icon with a minus sign on it (also used to remove equipment applied to an embargo), see [Removing Geographic Locations from Embargoes](#).

- y. **Include These Locations/Target All Locations:** Select one of these radio buttons to determine if the embargo should target all locations except the ones you specify in the exclude section or specific FSACs or States. Selecting Target All Locations removes the options to specify Interchanges or a Geography Template.
- z. **Origin/Destination:** Use these fields to specify an origin and/or destination location (FSAC or State) for the embargo. Select the Bi-Directional checkbox to have the specified locations applied as both origin and destination. Use the available search icons to look up FSACS or State abbreviations.
- As necessary use the plus and trash can icons to add additional entry fields and specify multiple Origin/Destination pairs:  
- aa. **Exclude These Locations:** Mark this checkbox to specify FSAC locations that should be excluded from the embargo. There are additional input fields here to specify origin and destination exceptions. Additionally, search icons are provided and a Bi-Directional checkbox is available.
- bb. **Include These Interchanges:** The **Include These Interchanges** textbox allows you to define Interchange criteria that will be used when evaluating embargo traffic. At least one **Origin/Destination** location or one **Interchange** are required, however both can be

included. When using a combination of **Origin/Destination** locations and interchanges, the **AND/OR** option can be used to further define impacted traffic.

The OR option means that when waybills are compared against the embargo. The route will be considered along with the Origin and/or Destination. If the waybill route indicates the specified interchange, or the Origin or the Destination, the waybill will be stopped by this embargo.

The AND means a waybill must contain the Origin/Destination as specified on the embargo and must contain the Interchange in its route in order to be stopped by the embargo.

- cc. **Choose a Geography Template:** If you want to create an embargo based on an established geography template, select one listed in the drop-down window. A geography template allows you to include locations related to other embargoes.

Select **Create a Geography Template** to initiate the process of creating a geography template (see [Creating Geographic Templates](#)).

- dd. **Target Select Umler Equipment Types /Target All Umler Equipment Types /Target Select Umler Equipment Type Groups / Target Select Equipment Type Groups / Target Select Intermodal / Target Select Umler Field/Status:** Select one of these radio buttons within the below field to determine if the embargo should include specific Umler equipment types, all Umler equipment types, or specific Umler equipment type groups.

- If you select **Target Select Umler Equipment Types**, an input box appears allowing you to specify the Umler equipment types to include ([Exhibit 11](#)).

☐ TC-PD-34 System Generated for Tank Cars	B527	Restricted

You can also specify the status of the element (not qualified, qualified, or ultra-qualified).

- ee. **Total Weight on Rail:** By default, the drop-down indicates no weight restrictions. If you need to specify a weight restriction, use the drop-down to select Equal to or Greater than. Additional fields appear allowing you to specify a weight quantity, checkboxes allowing you to specify weight conditions (Gross Weight, Net Weight, etc.). An additional input field labeled “Except These Cars” allows you to indicate if certain cars should be exempt from the weight restriction ([Exhibit 14](#)).

Exhibit 14. Issue Embargo–Total Weight on Rail

- ff. **Clearance Code:** Select a listed clearance code from the available drop-down, if needed ([Exhibit 15](#)).

Exhibit 15. Issue Embargo–Clearance Code

- gg. **Target Select / All Waybill Parties:** Select the **Target Select Waybill Parties** option if you want the embargo restricted to specified patrons ([Exhibit 16](#)). When **Target Select Waybill Parties** is selected, choose to include or exclude waybills with missing waybill parties (waybills missing one or more CIFs).

When **Target All Waybill Parties** is selected, an exception option appears, allowing you to embargo all waybill parties except certain specified parties.

When **Include waybills with missing waybill parties (CIFs)** is selected, an additional set of radio buttons are required to either **Include City and State validation** or **Exclude City and State validation**.

Exhibit 16. Issue Embargo–Waybill Parties

Waybill Parties

☒ Target Select Waybill Parties ☐ Target All Waybill Parties

☒ Include waybills with missing waybill parties (CIFs) ☐ Exclude waybills with missing waybill parties (CIFs)

☒ Include City and State validation ☐ Exclude City and State validation

Include Any of These Waybill Parties:

☐ Shipper ☐ Consignee ☐ Care of party ☐ Ship From ☐ Pick Up

Specify the type of waybill party (shipper, consignee, care of party, ship from, or pick up) then enter the specific **CIF** for that patron in the available field. Use the plus or trash can icons to add or remove additional waybill parties.

Select to include **Any** or **All** CIFs listed.

3. Select **Issue Embargo**. If there are any errors, the system will provide message prompts at the top and point you to where changes are needed until all entries are valid. Once you've made changes, select **Issue Embargo** again. Once all your entries are valid, a message appears at the top of the page asking you to confirm your decision to issue the embargo ([Exhibit 17](#)).

Exhibit 17. Are you sure you wish to issue this embargo?

✓ Are you sure you wish to issue this embargo? Press Issue Embargo to continue or press Edit to go back and make additional changes.

4. Select **Issue Embargo** to proceed or select **Edit** to make edits to the embargo prior to issuing it.

When issued, a second message is displayed informing you that the embargo has been successfully issued and an embargo number is assigned.

Note: An **embargo number** is a 10-character, system-generated identifier that consists of the following components:

- Issuing railroad road mark (or AAR).
- 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of a new year.
- 2 digits for year.

BNSF011102 is an example of a non-security embargo number.

Once approved, the Embargo becomes effective at midnight 48 hours later ([Exhibit 18](#)).

Exhibit 18. You have successfully issued an embargo

✓ You have successfully issued an embargo - Once approved by the AAR, your Embargo will become effective on the specified effective date.

If errors are found, then they must be corrected before the embargo can be issued. Errors appear at the top of the Issue Embargo page.

Note: At any time in the creation of an embargo you can select **Save Draft** to save your work in progress. See [Viewing and Completing Draft Embargoes](#) for information on how to resume work on a saved draft embargo.

5. Perform one of the following additional steps based on the available action buttons ([Exhibit 19](#)):

Exhibit 19. Issue Embargo–Action Buttons

- a. Select **Edit** to edit the embargo (see [Editing Embargoes](#)).
- b. Select **Clone** to create a new embargo that closely resembles the one you just created (see [Cloning Embargoes](#)).
- c. Select **Delete** to delete embargo (see [Deleting Embargoes](#)).
- d. Select **Approve** to approve the embargo (see [Approving Embargoes](#)).
- e. Select **Reject** to reject the embargo (see [Rejecting Embargoes](#)).
- f. Select **View Journal** to view journal information or to create an entry in the journal for the embargo (see [Viewing and Creating Embargo Journal Entries](#)).
- g. Select **Printable View** to display a printable version of the created embargo.
- h. Select **Export as XML** to export the displayed embargo in XML format (see [Exporting Embargoes as XML](#)).
- i. Select **Show Audit Trail** to view historical details of the embargo (see [Viewing the Audit Trail from Embargoes Search](#)).
- j. Select **Return** to return to the previously displayed page.

Searching and Viewing Embargoes

Use the following procedure to search for and view embargoes. Options for working with displayed embargoes vary depending on your level of assigned access.

1. Select **Embargoes > Search Embargoes**. The Search Embargoes page is displayed ([Exhibit 20](#)).

Exhibit 20. Search Embargoes

2. Enter a specific Embargo Number, the road mark of the issuing company (select the search icon to look up road marks), Created By, and/or select a State/Province. Optionally, select one or more of the available Embargo Status indicators (All, Amended, Cancelled, Approved/Effective (default), Expired, or Re-issued).

Note: See [Searching Embargoes – Advanced Search](#) on for information on how to perform a search with additional options.

3. Complete the available input fields:

Field	Description
Embargo No.	An embargo number is 10 characters in length and consists of the following components: ▪ Issuing railroad road mark ▪ 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of each new year. ▪ 2 digits for the last two numbers of the year. Here is an example of an embargo number: BNSF012315
Issuing Road	Road mark that issued the embargo. Enter the road mark or use the lookup feature by selecting the search icon next to the text box.
Created By	Single Sign-On User ID of the creator of the embargo.
State/Province	State/province affected by the embargo. From the drop down, choose a state/province.

Field	Description
Status	All – by checking this box, all embargoes that have been created and handled by the AAR Embargo Admin are returned regardless of their status. Amended – by checking this box, only approved and amended embargoes are returned. Cancelled – by checking this box, only embargoes approved and later cancelled by the road are returned. Approved/Effective – by checking this box (default), only approved and effective embargoes are returned. Expired – by checking this box, only embargoes that were approved and have expired are returned. Re-issued – by checking this box, only embargoes that were approved, expired, and then reissued are returned.

4. Select **Search**. The results of the specified search are displayed (max 500 records). See [Exhibit 21](#).

Note: Security embargoes are highlighted in yellow. For security embargoes, only registered users with the proper assigned rights can see the full details of the embargo.

Close Print

Select **Print** to print out the displayed embargo or select **Close** to cancel the printing.

Note: You may need to scroll to the bottom of the page to see the Print and Close buttons.

- d. Select **Export As XML** to export the displayed embargo in XML format. See [Exporting Embargoes as XML](#).
- e. Select **Amend** to issue an amendment to the displayed embargo. See [Amending Embargoes](#).

Note: If the displayed embargo already has existing amendments, you can select the hyperlink of an amendment number to view that version of the embargo.

- f. Select **Cancel** to cancel the embargo. See [Cancelling Embargoes](#).
- g. Select **Request Permit** to request a permit for the embargo. See [Requesting Embargo Permits](#).
- h. Select **Admin Issue Permit** to issue an embargo permit as an administrator. See [Administering Embargo Permit Creation](#).

Note: This function is only available to administrators.

- i. Select **Show Audit Trail** to view a history of the displayed embargo record. See [Searching Audit Logs from the Tools Menu](#).
- j. Select **View Journal** to display any journal entry associated with the embargo. See [Viewing and Creating Embargo Journal Entries](#).

- k. Select **Return** to return to the Search Embargo Results page. You can also use the back arrow in the browser to return to your search results.
- l. **Operating Station Notice Details:** [Exhibit 24](#) is an example of the Operating Station Notice Details screen. Operation Station Notice Details can be found by using the Advanced Search ([Searching Embargoes – Advanced Search](#)) and selecting **Yes** for **Op Station Notice** and the **Search** button. An operating station notice is informational only; no waybills are matched or EDI 824s issued.

Searching Embargoes – Advanced Search

Use the following procedure to search and view Embargoes using advanced search options to narrow the parameters of the search:

1. Select **Embargoes > Search Embargoes**. The Embargoes Search page is displayed. Select the toggle button next to **Advanced Search** in the top right corner to reveal additional search options ([Exhibit 25](#)).

Note: Select the toggle button again to return to the Simple Search and hide the advanced search fields.

2. Certain fields have entry limits:
 - a. For **Commodity**, **Waybill Parties** and **Umler Equipment Type Codes**, enter up to 10 values
 - b. For **Geography FSAC**, enter up to 120 characters
 - c. For **Geography State/Province**, enter up to 10 states
 - d. For **Geography Interchange**, enter up to 170 characters
3. Complete the available input fields:

Field	Description
Embargo No.	An embargo number is 10 characters in length and consists of the following components: ▪ Issuing railroad road mark ▪ 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of each new year. ▪ 2-digits for the last two numbers of the year. Here is an example of an embargo number: BNSF012315
Issuing Road	Road mark that issued the embargo. Enter the road mark or use the lookup feature by selecting the search icon next to the text box.
Effective Date Range	Use the calendar tools to specify a start and end date to filter for the Effective Start Date listed in the embargo.
Exclude Target All Results for Criteria	Select one or more sections of the embargo to remove Target All results from appearing in the search. For example, selecting Commodity may still include one or more commodities, but will not include any embargoes that target all commodities (where All appears in the Commodity column).
Permit Number	Permit numbers are 10 characters in length and consist of a randomly generated combination of letters and numbers (for example, A887659944).
AAR Security Embargoes Only	Check this to only see security embargoes.
Participating Roads Added Stations	Select Yes to show in the search results any embargo where the participating road has added a station to the embargo. Select No to show in the search results any embargo where the participating road has not added stations to the embargo. Select Both to show in the search results any embargo where the participating road has or has not added stations to the embargo.
Created by	Single Sign-On User ID of the creator of the embargo.
Cause	Choose a specific cause from the drop-down list.

Field	Description
Participating Road	Road invited to participate in the issued embargo.
Status	Check the appropriate box (All, Amended, Cancelled, Approved/Effective, Expired, or Re-issued).
Commodity	Enter up to ten (10) specific STCC's, enter a range (e.g., 4930000-4930024), or use the lookup feature by selecting the search icon next to the text box.
Waybill Parties	Enter the up to ten (10) specific CIF Numbers (all 13 characters) or use the lookup feature by selecting the search icon next to the text box.
Umler Equipment Type Code	Choose one of these options: All Equipment Type Codes – Include all equipment types. Select Equipment Type Codes – Enter up to ten (10) standard Umler Equipment Type Codes or use the lookup feature by selecting the search icon next to the text box. Equipment Type Groups – Select the checkboxes for the equipment types that you want to include.
Geography	Choose one of these options: All FSAC and States – Include all geographic locations. FSAC – Choosing this option displays a text box with the ability to enter up to 120 characters. Use the lookup feature by selecting the search icon next to each text box. State/Province – Choosing this option displays a text box with the ability to enter up to ten (10) states/provinces. Use the lookup feature by selecting the search icon next to each text box. Interchange – Choosing this option displays a text box that enable you to enter up to 170 characters. Use the lookup feature by selecting the search icon next to each text box. Enter an asterisk (*) as a wildcard for either the origin or destination of the Junction Code.
Operating (Op) Station Notice	Choose whether to include operating station notices in your search results (Yes, No, or Both). The 'Both' option displays results for both operating station notices and regular embargoes.

4. Select **Search**. The results of the specified search are displayed (max 500 records).

Note: Security embargoes are highlighted in yellow. For security embargoes, only registered

users with the proper assigned rights can see the full details of the embargo.

Viewing Pending Embargoes

Pending embargoes are embargoes that have been submitted, but not yet approved. Use the following procedure to view pending embargoes:

1. Select **Embargoes > View Pending Embargoes**. The View Pending Embargoes page is displayed.
2. In the Status Filter drop-down, ensure **Pending** is selected. A list of embargoes in pending status is displayed ([Exhibit 26](#)).

Exhibit 26. View Pending Embargoes

6. When there are two or more pages of results, use the arrows in the bottom right to page through all the results.
7. Select the **Embargo Number** link of the pending embargo that you want to view. The Embargo Details page is displayed showing the details of the pending embargo.

Cloning Embargoes

Use the following procedure to clone an embargo from an existing embargo. The new issued embargo is assigned a new embargo number, appears in **Pending** status, and is forwarded for approval.

1. Select **Embargoes > View Pending Embargoes**. The Pending Embargo List page is displayed.

Note: You can also clone an embargo by selecting the available **Clone** button that is displayed after an embargo has been created or from embargoes with other statuses, such as **Draft**.

2. Select the Embargo Number of the listed embargo that you want to clone. The Embargo Details page is displayed.
3. Select the **Clone** button. The Issue Embargo page is displayed with input fields pre-filled to match the selected embargo. The Embargo Number is blank, the Request Date is the current date, the Expiration Date is a year from the request date, and the Status is **New**. All other data are Cloned.
4. Complete or modify the available input fields (see [Issuing Embargoes](#) for additional information). Select the **Issue Embargo** button when complete.

Exporting Embargoes as XML

You can export an embargo as an XML file that can then be used in another system.

Use the following procedure to export an embargo as XML:

1. Select **Embargoes > Search Embargoes** to perform a search for the active embargo that you want to export as XML. The Search Embargo Results page is displayed.
2. Select the Embargo Number of the embargo that you want to export as XML. The Embargo Details page is displayed.
3. Select **Export as XML**. A pop-up box is displayed asking if you want to save or open the file.
4. Select the application that you want to use to open the XML file or browse to the location where you want to save the output file.

Editing Embargoes

Use the following procedure to edit an embargo that is in **Pending** or **Draft** status:

1. Select **Embargoes > View Pending Embargoes**. The Pending Embargo List page is displayed.
2. Select the Embargo Number of the embargo that you want to edit. The Embargo Details page is displayed.
3. Select **Edit**. The embargo fields are opened for edits.
4. Complete any required edits. For embargoes in **Pending** status, select **Save Embargo**. For embargoes in **Draft** status, select either **Save Draft** or **Issue Embargo**.

Deleting Embargoes

Note: Only Railinc Administrators have access to this function.

Use the following procedure to delete an embargo that is in **Pending** or **Draft** status:

1. Select **Embargoes > View Pending Embargoes**. The Pending Embargo List page is displayed. Use the drop-down to select draft or pending embargoes.
2. Select the **Embargo Number** link of the embargo that you want to delete. The Embargo Details page is displayed.
3. Select **Delete**. A pop-up message is displayed asking you to specify the reason for deleting the embargo ([Exhibit 27](#)).

Exhibit 27. Delete Embargo Reason Pop-up

A screenshot of a 'Delete Embargo' pop-up dialog box. The title bar at the top left says 'Delete Embargo' in red, and there is a close button (X) at the top right. Below the title bar is a text input field with the placeholder text 'Delete Embargo Reason'. At the bottom right of the dialog box are two buttons: 'Cancel' and 'Delete'.

4. Enter a reason for deleting the embargo. Select **Delete**. A message is displayed informing you that the embargo has been deleted ([Exhibit 28](#)).

Exhibit 28. Successfully Deleted Message

Approving Embargoes

Note: Only Railinc Administrators have access to this function.

Use the following procedure to approve an embargo that is in **Pending** status:

1. Select **Embargoes > View Pending Embargoes**. The Pending Embargo List page is displayed. Use the drop-down to select **Draft** or **Pending** embargoes.
2. Select the Embargo Number of the embargo that you want to approve. The Embargo Details page is displayed.
3. Select **Approve**. A message is displayed informing you that the embargo has been approved ([Exhibit 29](#)).

Exhibit 29. Successfully Approved Message

A green rectangular message box with a green checkmark icon on the left and the text "You have successfully approved an embargo." in green.

Rejecting Embargoes

Note: Only Railinc Administrators have access to this function.

Use the following procedure to reject an embargo that is in **Pending** status:

1. Select **Embargoes > View Pending Embargoes**. The Pending Embargo List page is displayed. Use the drop-down to select a **Pending** embargo.
2. Select the Embargo Number of the embargo that you want to reject. The Embargo Details page is displayed.
3. Select the **Reject** button. A pop-up box is displayed asking for you to explain the reason for the rejection ([Exhibit 30](#)).

Exhibit 30. Reject Embargo Reason Pop-up

A modal dialog box titled "Reject Embargo" in red text. It has a close button (X) in the top right corner. Inside the dialog, there is a large text input field with the placeholder text "Reject Embargo Reason". At the bottom right of the dialog, there are two buttons: a "Cancel" button and a "Reject" button.

4. Enter a reason for the rejection and select the **Reject** button. A message is displayed informing you that the embargo has been rejected ([Exhibit 31](#)).

Exhibit 31. Successfully Rejected Message

✓ You have successfully rejected an embargo.

Viewing the Audit Trail from Embargoes Search

Embargo Officers can view the audit trail of an embargo and see the history of the embargo, including the ID that created the embargo and the dates, reasons, and types of any changes.

Use the following procedure to view the audit trail of an embargo from the embargoes search option:

Note: You can also search audit logs from the tool menu (see [Searching Audit Logs from the Tools Menu](#)).

1. Select **Embargoes > Search Embargoes**. The Search Embargoes page is displayed. Search for an embargo that you want to audit (see [Searching and Viewing Embargoes](#)).
2. Select the Embargo Number of the embargo that you want to audit. The Embargo Details page is displayed.
3. Select the **Show Audit Trail** button. The Search Audit Logs Results page is displayed ([Exhibit 32](#)).

4. Select the column header to sort the column in descending or ascending order. Arrow up is descending and arrow down is ascending.
5. To adjust column width, hover over the line between the columns until you see double vertical lines with an arrow on either side and move it to the left or right to desired width.
6. When there are two or more pages of results, use the arrows in the bottom right to page through all the results.

7. To filter on a column, either enter criteria into the field below a column header or select the filter icon and use the drop-down list to select how you want to filter on the content and enter your filter criteria. Select the **Clear Filters** button to clear all filters.
8. Perform one of the following steps:
 - a. Select a listed Embargo Number to view its details (see [Searching and Viewing Embargoes](#)).
 - b. Select **Return** to return to the Embargo Details page.
 - c. Select **Printable View** to view a print-ready version of the search results.

Viewing and Creating Embargo Journal Entries

Note: This process is for Permit Officers.

A journal entry is a free form text field that allows you to enter additional information about an embargo. You can only view journal entries for your own road.

Use the following procedure to view the journal and create a journal entry for an embargo:

1. Select **Embargoes > Search Embargoes**. The Search Embargoes page is displayed. Search for an embargo with a journal entry that you want to view, or search for an embargo for which you want to create a new journal entry.
2. Select the Embargo Number of the embargo with a journal entry that you want to view. The Embargo Details page is displayed.
3. Select the **View Journal** button. The Journal Entries page is displayed ([Exhibit 33](#)).

	07-13-2026 11:12:26	Added journal entry

Page Size: 100 1 to 1 of 1 < > Page 1 of 1

[Return](#)

4. Select the **Add Journal Entry** button to add a new journal entry. A time stamped line is added to the journal allowing for input ([Exhibit 34](#)).

Exhibit 34. Add Journal Entry

A form titled "Add Journal Entry" with a close button (X) in the top right. It contains two input fields: "Created By" and "Created On" (displaying "07-13-2026 11:13:25"). Below these is a large text area for "Journal Entry". At the bottom right is a blue "Save" button.

5. Complete the journal entry and select **Save**.

Amending Embargoes

Use the following procedure to amend an effective embargo. The revised embargo is in **Pending** status and is forwarded for approval.

1. Select **Embargoes > Search Embargoes**. Perform a search for the effective embargo that you want to amend. The Search Embargo Results page is displayed.
2. Select the Embargo Number of the embargo that you want to amend. The Embargo Details page is displayed.
3. Select **Amend**. The Amend Embargo page is displayed with fields open for change ([Exhibit 35](#)).

Exhibit 35. Amend Embargo

A form titled "Amend Embargo" with a close button (X) in the top right. It is divided into sections. The "General Embargo Information" section includes fields for "Embargo No: ARR000125", "Amendment No.: 2", "Issuing Road: ARR", and "Expiration Date: 10-01-2026". There are checkboxes for "Op Station Notice", "Effective Immediately", "Include Empty Revenue Cars" (checked), and "Include All Empty Cars". A "Request Date" field shows "10-01-2025". There are dropdown menus for "Allow Permits" (set to "Yes") and "Bypass Local Waybills" (set to "Yes"). There are text input fields for "Embargo Contact Email*" and "Permit Contact Email/Url". A text area for "Participating Roads" contains "BNSF, UP". A text area for "Notes to Participating Roads" is empty. At the bottom, there are checkboxes for "Min Car Allowed" and "Max Car Allowed".

Remove Locations

3. Select the trash can icon next to the location you want removed.
4. Confirm your choice to remove any selected locations by selecting the **Remove Locations** button. The Embargo page is redisplayed with the indicated locations removed. Select **Cancel** if you want to cancel the removal process.

Cancelling Embargoes

Use the following procedure to cancel an embargo.

1. Select **Embargoes > Search Embargoes**. Perform a search for the effective embargo that you want to cancel. The Search Embargo Results page is displayed.
2. Select the Embargo Number of the embargo that you want to cancel. The Embargo Details page is displayed.
3. Select the **Cancel** button. The Cancel Embargo Reason pop-up box appears ([Exhibit 41](#)).

Exhibit 41. Cancel Embargo Reason

4. Enter a reason for the cancellation and select the **Cancel Embargo** button. Select **Close Screen** if you want to back out of the cancellation process. A message is displayed informing you that the embargo is cancelled. A warning is displayed if the cancelled embargo has any permits ([Exhibit 42](#)).

Exhibit 42. Successful Cancel Message with Permit Warning

Note: When an embargo is cancelled, all pending permit requests associated with the embargo are also cancelled.

Re-issuing Embargoes

Use the following procedure to re-issue an embargo when the original embargo is about to expire. The re-issued embargo is in **Pending** status and is forwarded for approval.

Notes:

- In order to be able to re-issue an embargo the expiration must be within 30 days of the current date. For example, if an embargo is set to expire on 11/11/15 then the application will not allow the embargo to be re-issued until 10/12/15 or later. An embargo cannot be re-issued after the expiration date.

- The application sends out an email tickler notice to all affected subscriptions 30 days prior to the posted expiration date of the embargo.
1. Select **Embargoes > Search Embargoes**. Perform a search for the currently approved/effective embargo issued by your company that you want to re-issue. The Search Embargo Results page is displayed.
 2. Select the Embargo Number of the embargo that you want to re-issue. The Embargo Details page is displayed.
 3. Select the **Re-Issue** button. The Embargo Re-Issue Details page is displayed ([Exhibit 43](#)).

Exhibit 43. Embargo Re-Issue Details

4. Select the **Re-Issue** button. A confirmation message is displayed stating that the embargo has been successfully re-issued ([Exhibit 44](#)).

Exhibit 44. Successfully Re-Issued Message with Notes Warning

A confirmation email is sent out to addresses that have been set up in a subscription list. A reissued embargo is created in **Pending** status and is sent for AAR approval.

Printing Embargoes

Use the following procedure to print an embargo:

1. Select **Embargoes > Search Embargoes**. Perform a search for the embargo that you want to print. The Search Embargo Results page is displayed.
2. Select the Embargo Number of the embargo that you want to print. The Embargo Details page is displayed.

3. Select the **Printable View** button. A print-ready version of the embargo is displayed ([Exhibit 45](#)).

Exhibit 45. Print Embargo View

The screenshot shows a 'Print Embargo' dialog box with a title bar containing a close button (X). The dialog contains the following text:

3. Select the column header to sort the column in descending or ascending order. Arrow up is descending; arrow down is ascending.
4. When there are two or more pages of results, use the arrows in the bottom right to page through all the results.
5. To filter on a column, either enter criteria into the field below a column header or select the filter icon and use the drop-down list to select how you want to filter on the content and enter your filter criteria. Select the **Clear Filters** button to clear all filters.
6. Select the **Embargo Number** link of the draft embargo that you want to view/complete. The Embargo Details page is displayed.
7. Select **Edit** to resume work on the displayed embargo. The General Embargo Information page is displayed allowing you to edit/complete the available fields.
8. Complete and edit the available fields (see [Issuing Embargoes](#) for additional information).
9. Perform one of the following steps:
 - a. Select **Issue Embargo**. A message appears at the top of the page informing you that the embargo has been successfully issued. The system sends an email to the AAR to approve the request. If errors are found, then they must be corrected before the embargo can be issued. Errors appear at the top of the page.
 - b. Select **Save Draft** to save any changes made without submitting the embargo.

Creating an Embargo Template

If you plan on creating a number of embargoes, you can save time by creating an embargo template, which allows you to save and reuse information. Use the following procedure to create an embargo template:

1. Select **Embargoes > Create Embargo Template**. The Create Embargo Template page is displayed ([Exhibit 47](#)).

To view [AAR Circular TD-1](#), which governs the placing and handling of embargoes, select **Embargoes > TD1 Circular**. The Circular TD-1 page is displayed ([Exhibit 53](#)).

Exhibit 53. Circular TD-1

Association of American Railroads
Safety and Operations • Business Services
425 Third Street, SW • Washington, D.C. 20024

CIRCULAR NO. TD-1

IN EFFECT AS OF JANUARY 1, 2021
EXCEPT AS NOTED
CODE OF CAR SERVICE RULES/CODE OF CAR HIRE RULES

PREAMBLE

The Rules contained herein do not foreclose subscribers from entering into other agreements which may differ from these rules.

Note: Substantive changes are highlighted in **yellow**.

TO: TRANSPORTATION OFFICERS--ALL RAILROADS

The following instructions shall govern the placing and handling of embargoes/**Official Railroad Station List Notes (OPSL Notes)**:

This circular provides instructions for the placing of embargoes/**OPSL Notes** and for the handling of embargoed traffic. It does not establish standards for determining whether an embargo is lawful or unlawful. The party placing an embargo/**OPSL Note** is responsible for compliance with all applicable laws and regulations.

I. EMBARGO

A. DEFINITIONS

1. An embargo is a method of controlling Traffic movements when, in the judgment of the serving railroad, an actual or threatened Physical or Operational Impairment, of a temporary nature, warrants restrictions against such movements.
2. For the purpose of this Circular, "Traffic" is defined as follows:
 - i Loaded and revenue empty freight cars, trailers, and/or containers.
 - ii In the case of a disaster in which damage or destruction of railroad facilities such bridge fires, accidents, or the imminent occurrence of such a physical impairment (for example, the approaching hurricane, rising floodwaters) all rail equipment including railroad and privately-owned freight cars, trailers, and/or containers.

Managing Embargo Permits

A railroad user can request a permit (or multiple permits) for specific shipments to proceed to an embargoed destination.

A railroad user with assigned Embargo Permit Officer permissions can grant a permit (or multiple permits) for specific shipments to proceed to an embargoed destination.

When you select **Embargo Permits** on an AAR Embargo System page, the Embargo Permits menu is displayed ([Exhibit 54](#)).

Exhibit 54. Embargo Permits Menu

[Exhibit 55](#) describes the tasks available on the Embargo Permits menu.

Exhibit 55. Embargo Permits Menu Items and Descriptions

Menu Item	Description
Request Permit	Enables you to request a permit to bypass an embargo.
Search Permit Number	Enables you to search for and view any embargo permit for which you have the permit number regardless of status.
Search Permits	Enables you to search and view all issued embargo permits.
Search Permit Requests	Enables you to search permit requests of different statuses.
Admin Permit Create	Enables a Railinc Administrator to issue a permit for an embargo (for example, if a shipper cannot access the Embargo/OPSL Notes System).
Search Embargo/Permit Officers	Enables you to search for embargo and permit officers for all marks.

Requesting Embargo Permits

Any AAR Embargo/OPSL Notes and Permit System user may request an embargo permit.

Note: The following must be true:

- The embargo selected must allow permits.
- The embargo selected is in approved status and is not expired or cancelled.

Use the following procedure to request an embargo permit:

1. There are two ways to request an embargo permit:
 - a. Search for the embargo to which you want to request to have a permit applied (see [Searching and Viewing Embargoes](#)). The Embargo Details page is displayed. Select the **Request Permit** button.
 - b. Select **Embargo Permits > Request Permit**. With this path, you must specify the embargo number on the Create Permit Request page.

The Create Permit Request page is displayed ([Exhibit 56](#)).

Exhibit 56. Create Permit Request

Create Permit Request

Instructions:

After submission of your request, for issues with permits/ obtaining permit numbers, please contact the permit officer(s) for the issuing road. To access a listing of railroad permit officers, please select Permits drop down and choose Search Officers option.

Submit

2. Complete the available input fields:

Field	Description
*Permit(s) for Embargo	If entering the page directly from the menu (Embargo Permits > Request Permit), then this option enables you to specify the Embargo number to which the permit(s) should be applied.
*Priority	Select the priority (High, Medium, or Low).
*Reason	Free-form reason for the permit.
*Number of Permits Needed	Enter the number of permits required.
Permit Start Date	Must be equal to or after associated embargo start date; must be prior to associated embargo end date; must be prior to requested end date.
Permit End Date	Default is calculated as 60 working days after start date or set as the associated embargo end date, whichever comes first. May not be equal or prior to requested start date. May not be prior to associated embargo start date. May not be after associated embargo end date.
Shipper CIF	One per permit request. If the Shipper CIF is specified in the associated embargo, then the entered CIF must be one of those specified.
Consignee CIF	One per permit request. If Consignee CIF is specified in the associated embargo, then the entered CIF must be one of those specified.
Origin FSAC	Origin Freight Station Accounting Code. Enter Roadmark and then FSAC number.
Destination FSAC	Destination Freight Station Accounting Code. Enter Roadmark and then FSAC number.
*Free-form Commodity	Multiple commodities allowed per permit. If a STCC is specified in the associated embargo, the entered STCC must be one of those specified. Free-form text is allowed. You may enter STCC code(s) or description(s).

3. Select the **Submit** button. The system sets the status of the request to **Pending** and stores the request as a permit request. Permit requests have a status of **Pending** until a permit officer either approves or denies the request, as long as the embargo is effective.

Searching and Viewing Embargo Permits

Use the following procedure to search and view existing embargo permits:

1. Select **Embargo Permits > Search Permits**. The Search Permits page is displayed ([Exhibit 57](#)).

Exhibit 57. Search Permits

2. Complete the available input fields:

Field	Description
Permit Number	Permit numbers are 10 characters in length and consist of a randomly generated combination of letters and numbers (for example, A887659944).
Embargo Number	10-character, system-generated identifier for created embargoes that consists of the following components: ▪ Issuing railroad road mark, ▪ 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of a new year, ▪ 2-digit year. Here is an example of an embargo number: BNSF011102
Embargo Issued By	Road mark that created the embargo. Select the search icon to open the Roadmark Lookup page.
Equip ID	Reporting mark and number of rail equipment.
Start/End Date	Start and End Date Range for permits; select the calendar icon for assistance with date entry.

Field	Description
Waybill Number	Number associated with the waybill.
Waybill Date	Date waybill was created.
Permit Status	List of possible permit request statuses available for selection; multiple selections are allowed.

3. Select **Search** to initiate the search for matching permits. The Search Permit Results page is displayed [Exhibit 58](#).

Permit(s) for Embargo: CN000526	Status: Effective
Permit Start Date: 03-13-2026	Permit End Date: 09-08-2026
Waybill Number: 0	Waybill Date:

Submitted Waybill Permit Error Description:

Embargo number is required if Permit Number is given

The Submitted Waybill Permit Error Description field indicates that this permit was applied to a waybill and attempted to be used unsuccessfully. The waybill that this permit was applied to is being held by an active embargo due to the error seen in this field. If needed, request a new permit, use a new permit, or contact the Embargo Issuing Railroad.

- For shippers, the **Submitted Waybill Permit Error Description** appears with an error when a permit that was applied to a waybill cannot be used successfully. The first error is shown from the generated 824 message, even though there may be more than one error. If needed, request a new permit, use a new permit or contact the embargo issuing railroad.
- Perform one of the following actions (the available actions vary depending on the status of the permit):
 - Select the **Permit(s) for Embargo** link to view the embargo associated with the displayed permits.
 - Select **Return** to return to the Search Permit Results page.
 - Select **Printable View** to view a printable version of the permit.

- d) Select **Cancel Permit** to cancel the displayed permit (for “effective” permits).
- e) Select **View Audit Log** to audit a history of the displayed permit.
- f) Select **Export As XML** to export the displayed permit as XML.
- g) Select **Export As CSV** to export the displayed permit in CSV format.

Searching by Embargo Permit Number

If you know the permit number, use the following procedure to view any single permit regardless of status:

1. Select **Embargo Permits > Search Permit Number**. The Search Permits page is displayed ([Exhibit 60](#)).

Exhibit 60. Search Permits (By Permit Number)

2. Complete the **Permit Number** field. Permit numbers are ten (10) characters in length and consist of a randomly generated combination of letters and numbers (for example, CN120AA014).
3. Select **Search** to initiate the search for matching permits. The Search Permit Results page is displayed with the single matching permit ([Exhibit 61](#)).

Exhibit 61. Search Permit Results

Permit These STCC Commodities

Return

Issue Permit

2. Complete the available input fields:

Field	Description
*Permits for Embargo	Enter the embargo number of the embargo for which you want to issue a permit. An embargo number is a 10-character, system-generated identifier for created embargoes that consists of the following components: ▪ Issuing railroad road mark, ▪ 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of each new year, ▪ 2 digits for the last two numbers of the year. Here is an example of an embargo number: BNSF011102
*Number of Permits Needed	Enter the number of permits required.
Railinc Generated Permit Number(s)	If checked, Railinc assigns a random alpha-numeric Permit Number. If not checked, a text box appears allowing you to assign your own Permit Numbers. Separate multiple entries by commas.
Number of Permits Allowed Per Day	This automatically populates with the Number of Permits Needed but can be changed to a lesser number that is allowed per day.
Permit Start Date	Must be equal to or past associated embargo start date; must be prior to associated embargo end date; must be prior to the requested end date.
Include All Embargoed STCCs	An Embargo Number must be entered in the Permit(s) for Embargo field before this feature is active. Toggle on (blue) this feature to import all the STCC commodities associated with the embargo. The form does not allow duplicate STCCs to be added to the list if this toggle is turned off and on again. Select the Permit These STCC Commodities field to edit or delete the STCCs.
Permit End Date	Default is calculated as 60 working days after the start date or set as the associated embargo end date, whichever comes first; may not be equal to or prior to the requested start date; may not be prior to the associated embargo start date; may not be after the associated embargo end date.

Field	Description
Permit These STCC Commodities	Multiple STCCs are allowed per permit; if STCC(s) are specified in the associated embargo, then the entered STCC must be one of those specified. Specify a range of STCC numbers by entering the beginning STCC, then a dash (-), then the ending STCC in the range.

3. Select the **Submit** button. The system sets the status of the request to **Pending** and stores the request as an embargo permit request. Permit requests have a status of **Pending** until the permit officer either approves or denies the request, as long as the embargo is effective.

Approving Embargo Permit Requests

Note: This process is for Permit Officers.

As a Permit Officer, you can perform a search to find embargo permit requests waiting for your approval. Then select a permit request and provide approval. Requests may be approved if their current status is **Pending**. The embargo associated with the permit must be approved and active.

Use the following procedure to approve embargo permit requests:

1. Perform a search for permit requests (see [Searching and Viewing Embargo Permit Requests](#)).
2. From the Permit Request Details page, select **Start Approval** to start the approval process. The Approve Permit Request page is displayed ([Exhibit 68](#)).

3. Complete the available input fields:

Field	Description
Note	Free-form notes field.
*Reason	Free-form field; reason for the embargo permit request.
*Priority	Select the priority (High, Medium, or Low).
*Number of Permits Needed	Enter the number of permits required.
Number of Permits Allowed per Day	Enter the number of permits allowed each day.
Permit Start Date	Must be equal to or past associated embargo start date; must be prior to associated embargo end date; must be prior to requested end date.

Field	Description
Permit End Date	May not be equal or prior to requested start date. May not be prior to associated embargo start date. May not be after associated embargo end date.
Shipper CIF	One per permit. If Shipper CIF(s) are specified in the associated embargo, then the entered CIF must be one of those specified.
Consignee CIF	One per permit. If Consignee CIF(s) are specified in the associated embargo, then the entered CIF must be one of those specified.
Origin FSAC	Origin Freight Station Accounting Code. Enter Roadmark and then FSAC number. Lookup available.
Destination FSAC	Destination Freight Station Accounting Code. Enter Roadmark and then FSAC number. Lookup available.
Include All Embargoed STCCs	Toggle on (blue) this feature to import all the STCC commodities associated with the embargo. The form does not allow duplicate STCCs to be added to the list if this toggle is turned off and on again. Select the Permit These STCC Commodities field to edit or delete the STCCs.
Permit These STCC Commodities	Multiple STCC(s) are allowed per permit. If STCC(s) are specified in the associated embargo, then the entered STCC must be one of those specified. Specify a range of STCC numbers by entering the beginning STCC, then a dash (-), then ending STCC in the range.

4. Select **Approve Permit**. The system notifies the requestor. The permit request is now considered approved, and a request id is assigned.

Rejecting Embargo Permit Requests

Note: This process is for Permit Officers.

As a Permit Officer, you can perform a search to find permit requests waiting for approval. Then select a permit request and reject it. Requests may be rejected by a Permit Officer if its current status is **Pending**.

Use the following procedure to reject embargo permit requests:

1. Perform a search for permit requests (see [Searching and Viewing Embargo Permit Requests](#)).
2. From the Permit Request Details page, select **Reject Request**. The Permit Request Reject Reason Pop-up window is displayed ([Exhibit 69](#)).

Exhibit 69. Permit Request Reject Reason

A dialog box titled "Permit Request Reject Reason" with a close button (X) in the top right corner. Below the title is a large text input field. At the bottom of the dialog are two buttons: "Cancel" and "Reject".

3. Enter a free-form rejection reason and select **Reject**. The system notifies the requestor. The permit request is now considered rejected and may not have waybills approved against it. The Permit Request Details page is displayed ([Exhibit 70](#)).

Exhibit 70. Permit Request Successfully Rejected

A confirmation screen with a green header bar containing a checkmark and the text "Permit Request successfully rejected" and a close button (X). Below the header is a section titled "Permit Request Details".

Origin / Destination:			
Free Form Commodity:	grain		
Instructions:	For issues with permits/ obtaining permit numbers, please refer to the original embargo for information on the permit officer.		

At the bottom right of the screen are four buttons: "Return", "Printable View", "View Journal", and "View audit log".

Searching for Embargo Permit Officers

Use the following procedure to search for Embargo Permit Officers:

1. Select **Embargo Permits > Search Embargo/Permit Officers**. The View Railroad Embargo and Permit Officers page is displayed ([Exhibit 71](#)).

Exhibit 71. View Railroad Embargo and Permit Officers

The screenshot shows a search interface titled "View railroad embargo and permit officers". It features a "Roadmark" search box with a magnifying glass icon and a placeholder text "(Leave empty to view for all roads)". Below the search box, there are two radio buttons under the label "Display:". The first radio button is labeled "Only embargo officers" and is unselected. The second radio button is labeled "Only permit officers" and is selected, with a mouse cursor pointing at it. At the bottom right, there are two buttons: "Cancel" and "Search".

2. Enter the **Roadmark** of the OPSL or Permit Officer (leave empty to view all roads).
3. Select to display **Only Permit Officers**.
4. Select **Search**. The Search Permit Officers Results page is displayed ([Exhibit 72](#)).

Exhibit 72. Search Permit Officers Results

The screenshot shows the "Search permit officers results" page. At the top, it says "View railroad embargo and permit officers". Below that, it says "Search permit officers results". On the right side, it displays "Number of Permit Officer(s): 215" and buttons for "Clear Filters", "Refresh", and a download icon. Below this is a table with four columns: "Roadmark", "Name", "Phone number", and "Email address". The "Roadmark" column contains a list of roadmarks: ABS, ABWR, AGR, AGR, AGR, AKMD, ALM, AN, and AOR. The "Name", "Phone number", and "Email address" columns are currently blank. At the bottom right, there is a "Page Size" dropdown set to "100", a "1 to 100 of 215" indicator, and navigation arrows. A "Cancel" button is located at the bottom right of the page.

The Search Permit Officers Results page enables you to view the names, phone numbers, and email addresses for Embargo Permit Officers. Select **Cancel** to exit the page.

Working with OPSL Notes

When you select **OPSL Notes** on an AAR Embargo System page, the OPSL Notes menu is displayed ([Exhibit 73](#)).

Exhibit 73. OPSL Notes Menu

[Exhibit 74](#) describes the tasks available on the OPSL Notes menu.

Exhibit 74. OPSL Notes Menu Items and Descriptions

Menu Item	Description
Issue OPSL Note	Enables you to create an OPSL Note that permanently restricts rail traffic from a specified area. OPSL Notes are not in effect until they are approved by the AAR.
Search OPSL Notes	Enables you to search for and view OPSL Notes. Once results are located, you can perform additional functions.
View Pending OPSL Notes	Enables you to view a list of draft, pending, and rejected OPSL Notes for your mark.
Create OPSL Note Template	Enables you to create an OPSL Note template that is prepopulated with regularly used information.
View OPSL Note Template	Enables you to view and apply OPSL Note templates that you have created.
Search OPSL/Permit Officers	Enables you to search for OPSL and permit officers for all marks.
OPSL Note Rules/Guidelines	Enables you to view basic rules and guidelines for creating OPSL Notes.

Viewing OPSL Note Rules and Guidelines

To access basic overview rules and guidelines for the creation of OPSL Notes, select **OPSL Notes > OPSL Note Rules/Guidelines**. The OPSL Note Rules and Guidelines page is displayed ([Exhibit 75](#)).

Exhibit 75. OPSL Note Rules and Guidelines

OPSL Note Definition

What is the OPSL?

The Open & Prepaid Station List, known in the rail industry as the OPSL, is a rail industry governing geographical publication, an authoritative and highly up-to-date rail station directory.

What are OPSL Notes?

OPSL Notes in this application are unique characteristics attributable to a specific station which describe operational factors impacting traffic movements. Note numbers are displayed in parentheses adjacent to a station name in the Alphabetical and Geographical sections of the OPSL. The text of the notes themselves is displayed in the Notes Section under the appropriate note number.

OPSL Effective Dates

The OPSL Reissue and each OPSL Supplement carry 'issue' dates on their covers. These show the dates the publications are published. Also shown on the covers are effective dates. This date indicates everything in effect as of that point in time.

Subscribing to the OPSL

For information on how to subscribe to the OPSL visit us at our website:

2. Complete the available input fields:

Field	Description
OPSL Note No.	An OPSL tariff note number is 10 characters in length and consists of the following components: ▪ Issuing railroad road mark ▪ OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. ▪ 4-digit Tariff Note item number Here is an example of a tariff note number: BNSF – AB – 3200
Issuing Road	Enter road mark or use the lookup feature by selecting the search icon next to the text box.
Created By	Single Sign-On User ID of the creator of the OPSL Note.
State/Province	From the drop down choose a State/Province.
Status	All – by checking this box, all OPSL Notes that have been created and handled by the OPSL Admin are returned regardless of their status. Amended – by checking this box, only approved and amended OPSL Notes are returned. Cancelled – by checking this box, only OPSL Notes approved and later cancelled by the road are returned. Approved/Effective – by checking this box (default), only the approved and effective OPSL Notes are returned.

3. Select **Search**. The results of the specified search are displayed ([Exhibit 77](#)).

2. Certain fields have entry limits:
 - a. For **Commodity**, **Waybill Parties** and **Umler Equipment Type Codes**, enter up to 10 values
 - b. For **Geography FSAC**, enter up to 120 characters
 - c. For **Geography State/Province**, enter up to 10 states
 - d. For **Geography Interchange**, enter up to 170 characters
3. Complete the available input fields:

Field	Description
OPSL Note No.	An OPSL tariff note number is 10 characters in length and consists of the following components: • Issuing railroad road mark • OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. • 4-digit Tariff Note item number Example of a tariff note number: BNSF – AB – 3200
Issuing Road	Enter the road mark or use the lookup feature by selecting the search icon next to the text box.
Effective Date Range	Use the calendar tools to specify a start and end date to filter for the Effective Start Date listed in the OPSL Note.
Exclude Target All Results for Criteria	Select one or more sections of the OPSL Note to remove Target All results from appearing in the search. For example, selecting Commodity may still include one or more commodities, but will not include any OPSL Notes that target all commodities (where All appears in the Commodity column).
Permit Number	Permit numbers are 10 characters in length and consist of a randomly generated combination of letters and numbers (for example, A887659944).
Created by	Single Sign-On User ID of the creator of the OPSL Note.
Cause	Choose a specific cause from the drop down.
Participating Road	Road invited to participate in the issued OPSL Note.
Participating Roads Added Stations	Select Yes to show in the search results any OPSL Note where the participating road has added a station to the OPSL Note. Select No to show in the search results any OPSL Note where the participating road has not added stations to the OPSL Note. Select Both to show in the search results any OPSL Note where the participating road has or has not added stations to the OPSL Note.

Field	Description
Status	Check the appropriate box (All, Amended, Cancelled, Approved/Effective).
Commodity	Enter up to ten (10) specific STCC's, enter a range (e.g., 4930000-4930024), or use the lookup feature by selecting the search icon next to the text box.
Waybill Parties	Enter up to ten (10) specific CIF Numbers (all 13 characters) or use the lookup feature by selecting the search icon next to the text box.
Umler Equipment Type Code	Choose one of these options: All Equipment Type Codes – Include all equipment types. Select Equipment Type Codes – Enter up to ten (10) standard Umler Equipment Type Codes or use the lookup feature by selecting the search icon next to the text box. Equipment Type Groups – Select the checkboxes for the equipment types that you want to include.
Geography	Choose one of these options: All FSAC and States – Include all geographic locations. FSAC – Choosing this option displays a text box with the ability to enter up to 120 characters. Use the lookup feature by selecting the search icon next to each text box. State/Province – Choosing this option displays a text box with the ability to enter up to ten (10) specific states/provinces. Select the search icon next to each text box to search for states/provinces. Interchange – Choosing this option displays a text box with the ability to enter up to 170 characters. Use the lookup feature by selecting the search icon next to each text box. Enter an asterisk (*) as a wildcard for either the origin or destination of the Junction Code.

4. Select **Search**. The results of the specified search are displayed.

Issuing OPSL Notes

Use the following procedure to issue a new OPSL Note:

1. Contact Railinc Product Support and request an OPSL number.

2. Select **OPSL Notes > Issue OPSL Note**. The Issue Restricted Movement OPSL Note page is displayed ([Exhibit 81](#)).

Issue OPSL Note

3. Complete the available input fields:

Field	Description
OPSL Note No.	An OPSL tariff note number is 10 characters in length and consists of the following components: - Issuing railroad road mark - OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. 4-digit Tariff Note item number provided by Railinc Corp Here is an example of a tariff note number: BNSF – AB – 3200
Information Only OPSL Note	A pop-up box explains this is an information only OPSL Note. Select OK to close the pop-up. Checking this only serves as a notice of intent. No waybills are matched, or EDI 824 messages issued. An email is sent to affected parties.

Field	Description
Issued By	Enter road mark or use the lookup feature by selecting the search icon next to the text box.
Effective Date	Enter the effective date as it appears on the OPSL book or supplement where the note appears.
Published Date	Enter the published date (issued date) as it appears on the OPSL book or supplement where the note appears.
Supplement Number	If the note is published in an OPSL supplement, enter the supplement number in which it appears.
Allow Permits	To allow permits to the issued OPSL Note, select Yes , otherwise select No . When Yes is selected, the Permit Contact Email/Url field appears
Allow Admin Issued Permits	Check this box to allow admin issued permits. This option is only available for users with Embargo Officer permissions for the issuing road and can be selected when Allow Permits is No .
Bypass Local Waybills	Select Yes or No to determine if the OPSL Note should bypass local waybills.
OPSL Note Contact Email	Enter the OPSL note contact's email address.
Permit Contact Email/URL	Field appears when Yes is selected for Allow Permits. Enter the permit contact's email address or website link.
Include All Empty Cars	Select to include empty car waybills in the OPSL Note.

Field	Description
Participating Roads	Allows a road issuing an embargo to invite other roads to participate in the OPSL Note. Enter one or more road marks. As needed, use the search icon to look up reporting marks (Exhibit 82).

Exhibit 82. Roadmark Lookup

Roadmark Lookup

- Minimum characters required for fields: Roadmark 2, Description 3
- Roadmark matches are exact. Use * wildcard when uncertain. (example: BNSF, BNS*)

Plate restrictions

Field	Description
Cause Details	Use this field to explain the reason for the issued embargo (4000 characters). Government, Other, Weather and Weight must have an explanation included in the Cause Detail box.
Notes	Enter exact verbiage in the Notes text box that is listed in the OPSL Note Directory (up to 255 characters). This is reviewed for accuracy by the AAR/Railinc Admin.

Field	Description
Commodity	Select either to target your OPSL Note for selected or all commodities (Exhibit 84). Exhibit 84. Target Select Commodities  Target Select Commodities is the default option. Use this option to include only certain commodities. Specify the STCCs in the Include These Commodities field. Specify the 7-digit STCCs (front load with zeros as needed) with a comma separating multiple entries or copy and paste from a spreadsheet. STCC ranges are entered with the beginning STCC entered, then a dash (-), followed by the ending STCC in the range. Select the search icon to search for STCCs (Exhibit 85). Exhibit 85. Target All Commodities  Use the Target All Commodities option to include all commodities or all except those specified by STCC in the Except These Commodities field. Use the available input field to specify the 7-digit STCCs (front load with zeros as needed) with a comma separating multiple entries or copy and paste from a spreadsheet. STCC ranges are entered with the beginning STCC entered, then a dash (-), followed by the ending STCC in the range. Select the search icon to search for STCCs. Selecting the search icon to include or exclude commodities opens the Commodity Lookup. The RSSM & TIH/PIH STCCs button in the Commodity Lookup is available for officers only when issuing embargos, amendments and OPSL notes to provide support when searching for RSSM, TIH and PIH car types. See Exhibit 9 for details.
Geography	The Geography section provides you a variety of ways to specify the locations that need to be included in the OPSL Note (see Exhibit 86).

✓ Apply

[\[Create Geography Template\]](#)

Note: For instructions on using the search icon with a minus sign on it (also used to remove equipment applied to an OPSL Note), see [Removing Geographic Locations from OPSL Notes](#).

Include These Locations / Target All Locations

Select one of these radio buttons to determine if the OPSL Note should target all locations except the ones you specify in the exclude section or specific FSACs or States. Selecting **Target All Locations** removes the options to specify Interchanges or a Geography Template.

Origin/ Destination

Use these fields to specify an origin and/or destination location (FSAC or State) for the OPSL Note. Select the Bi-Directional checkbox to have the specified locations applied as both origin and destination. Use the available search icons to look up FSACS or State abbreviations.

As necessary use the plus and trash can icons to add additional entry fields to specify multiple Origin/Destination pairs.

Exclude These Locations

Mark this checkbox to specify FSAC locations that should be excluded from the OPSL Note. There are additional input fields here to specify origin and destination exceptions. Additionally, search icons are provided, and a Bi-Directional checkbox is available.

Include These Interchanges

This checkbox allows you to define the Interchange criteria that will be used when evaluating OPSL Note traffic.

The OR option means that when waybills are compared against the OPSL Note the route will be considered along with the Origin and/or Destination (an Interchange can be entered without a Destination). If the waybill route indicates the specified interchange, the waybill will be stopped by this OPSL Note.

The AND means a waybill must contain the Origin/Destination as specified on the OPSL Note and must contain the Interchange in its route in order to be stopped by the OPSL Note.

Choose a Geography Template

If you want to create an OPSL Note based on an established geography template, select one listed in the drop-down window. A geography template allows you to include locations related to other OPSL Notes.

Select Create a Geography Template to initiate the process of creating a geography template (see [Creating Geographic Templates](#)).

Select one of the radio buttons below to determine the equipment to be affected by the OPSL

Target Select Umler Equipment Types

Select the **Target Select Umler Equipment Types** radio button if the OPSL Note should target specific Umler Equipment Types. An input box appears allowing you to enter this information ([Exhibit 87](#)).

Exhibit 87. Target Select Umler Equipment Types

☐ E - Equipped Gondolas	☐ J - Gondola GT			☐ Z - Intermodal Trailers

Target Select Umler Railcars

Select **Target Select Umler Railcars** to enter a specific railcar, a list of railcars, or a range of railcars that are restricted by this OPSL Note ([Exhibit 89](#)). For example: UP10000 for a single car or UP10000-10020 for a range. Multiple cars must be separated by commas.

Exhibit 89. Target Select Umler Railcars

The screenshot shows the 'Equipment' form with the following options and fields:

- ☐ Target Select UMLER Equipment Types
- ☒ Target Select UMLER Railcars
- ☐ Target All UMLER Equipment Types
- ☐ Target Select Intermodal Equipment
- ☐ Target Select UMLER Equipment Type Groups
- ☐ Target Select UMLER Field/Status

Below the selected option, there are two text input fields:

- Include These UMLER Railcars:** A text box with the placeholder 'Include These UMLER Railcars' and a small 'A' icon.
- Except These UMLER Railcars:** A text box with the placeholder 'Except These UMLER Railcars' and a small 'A' icon.

Examples:

- UP10000 for a single car
- UP10000-10020 for range
- All other formats are invalid
- Multiple cars must be separated by commas

Target Select Intermodal

Select **Target Select Intermodal** in order to list a specific piece of Intermodal equipment, a list of Intermodal equipment, or a range of Intermodal equipment IDs that are restricted by this OPSL Note ([Exhibit 90](#)). For example: UP10000 for a single car or UP10000-10020 for a range. Multiple cars must be separated by commas.

Exhibit 90. Target Select Intermodal

The screenshot shows the 'Equipment' form with the following options and fields:

- ☐ Target Select UMLER Equipment Types
- ☐ Target Select UMLER Railcars
- ☒ Target Select Intermodal Equipment
- ☐ Target All UMLER Equipment Types
- ☐ Target Select UMLER Equipment Type Groups
- ☐ Target Select UMLER Field/Status

Below the selected option, there are two text input fields:

- Include These Intermodal Equipment:** A text box with the placeholder 'Include These Intermodal Equipment' and a small 'A' icon.
- Except These Intermodal Equipment:** A text box with the placeholder 'Except These Intermodal Equipment' and a small 'A' icon.

Examples:

- UP10000 for a single car
- UP10000-10020 for range
- All other formats are invalid
- Multiple cars must be separated by commas

Target Select Umler Field/Status

If you select **Target Select Umler Field/Status**, you can then select the specific listed Umler Element. Then specify the status of the element (not qualified, qualified, or ultra-qualified). See [Exhibit 91](#).

Exhibit 91. Target Select Umler Field/Status

The screenshot shows the 'Equipment' form with the following options and fields:

- ☐ Target Select UMLER Equipment Types
- ☐ Target Select UMLER Railcars
- ☐ Target All UMLER Equipment Types
- ☐ Target Select Intermodal Equipment
- ☒ Target Select UMLER Field/Status
- ☐ Target Select UMLER Equipment Type Groups

Below the selected option, there is a table with the following columns: UMLER Element Name, Code, and Status.

UMLER Element Name	Code	Status
☐ Refrigeration Emission Standard For Box Cars	B345	Not Qualified
☐ TC-PD-34 System Generated for Tank Cars	B527	Restricted

Total Weight on Rail

By default, the drop-down indicates no weight restrictions. If you need to specify a weight restriction, use the drop-down to select Equal to or Greater than. Additional fields appear allowing you to specify a weight quantity, as well as checkboxes allowing you to specify weight conditions (Gross Weight, Net Weight, etc.). An additional input field labeled **Except These Cars** allows you to indicate if certain cars should be exempt from the weight restriction ([Exhibit 92](#)).

Exhibit 92. Total Weight on Rail

The screenshot shows the 'Equipment Characteristics' section of a form. It includes a checkbox for 'Add Equipment Axle Count & Length Conditions to Restrict Movement'. Below this, there's a 'Total Weight on Rail' section with a dropdown menu set to 'Greater than or equal to', a quantity dropdown set to '- Select a Quantity -', and a unit dropdown set to 'lbs.'. Under 'Weight Conditions Used to Restrict Movement:', there are four checked checkboxes: 'Gross Weight', 'Net Weight', 'Estimated Weight', and 'UMLER Total Weight On Rail'. There is also an 'Except These Cars' text input field. To the right of this field, there are examples of valid and invalid car numbers: 'UP10000 for a single car', 'UP10000-10020 for range', and a note that 'All other formats are invalid' and 'Multiple cars must be separated by commas'.

Clearance Code

Select a listed clearance code from the available drop-down, if needed.

Target Select / All Embargo All Waybill Parties

Select the **Target Select Waybill Parties** option if you want the OPSL Note restricted to specified patrons ([Exhibit 93](#)). When **Target Select Waybill Parties** is selected, choose to include or exclude waybills with missing waybill parties (waybills missing one or more CIFs).

With **Target All Waybill Parties** selected, an exception option appears, allowing you to embargo all waybill parties except certain specified parties.

Exhibit 93. Target Select or All Waybill Parties

The screenshot shows the 'Waybill Parties' section of a form. It has two radio buttons: 'Target Select Waybill Parties' (which is selected) and 'Target All Waybill Parties'. Below these are two more radio buttons: 'Include waybills with missing waybill parties (CIFs)' and 'Exclude waybills with missing waybill parties (CIFs)' (which is selected). There is an 'Include' dropdown set to 'Any' and a text field 'of These Waybill Parties:'. Below this is a search bar with 'CIF' entered. At the bottom, there are checkboxes for 'Shipper', 'Consignee', 'Care of party', 'Ship From', and 'Pick Up', all of which are currently unchecked. There are also plus and trash can icons for adding or removing parties.

Specify the type of waybill party (shipper, consignee, care of party, ship from, or pick up) then enter the specific **CIF** for that patron in the available field. Use the plus or trash can icons to add or remove additional waybill parties.

Select to include **Any** or **All** CIFs listed. When **All** is selected, all CIFs for each patron listed here must be listed on the waybill to receive an EDI 824 hold.

4. Select **Issue OPSL Note** to issue the OPSL Note. Or, select **Save A Draft** to save your work in progress.

If all validation rules pass after selecting to issue an OPSL Note, a confirmation message and a warning message are displayed ([Exhibit 94](#)). The warning message is displayed alerting you of any roads that may need to be added as participants.

Exhibit 94. OPSL Note Confirmation and Warning Message

5. Perform one of the following steps:
 - a) Select **Edit** to edit the OPSL Note prior to issuing it.
 - b) Select **Issue OPSL Note** to issue the OPSL Note.
 - c) Select **Return** to return to the previous page.

Viewing and Creating OPSL Note Journal Entries

Note: This process is for Permit Officers.

A journal entry is a free form text field that allows you to enter additional information about an OPSL Note. You can only view journal entries for your own road.

Use the following procedure to view the journal and create a journal entry for an OPSL Note:

1. Select **OPSL Notes > Search OPSL Notes**. The Search OPSL Notes page is displayed. Search for an OPSL Note with a journal entry that you want to view, or search for an OPSL Note for which you want to create a new journal entry.
2. Select the OPSL Note Number of the OPSL Note with a journal entry that you want to view. The OPSL Note Details page is displayed.
3. Select the **View Journal** button. The Journal Entries page is displayed ([Exhibit 95](#)).

Exhibit 95. Journal Entries

4. Select the **Add Journal Entry** button to add a new journal entry. A time stamped line is added to the journal allowing for input ([Exhibit 96](#)).

Exhibit 96. OPSL Note Details Add Journal Entry

5. Complete the journal entry and select **Save**.

Amending OPSL Notes

Use the following procedure to amend an OPSL Note:

1. Select **OPSL Notes > Search OPSL Notes**. The OPSL Notes Search page is displayed. Search for the OPSL Note that you want to amend (see [Searching OPSL Notes](#)).
2. Select the **OPSL Note No** link to view its full details. The OPSL Note Details page is displayed.
3. Select **Amend**. The Amend OPSL Note page is displayed ([Exhibit 97](#)).

3. Select the trash can icon next to the location for the location you want removed.
4. Confirm your choice to remove any selected locations by selecting the **Remove Locations** button. The OPSL Note page is redisplayed with the indicated locations removed. Select **Cancel** if you want to cancel the removal process.

Cancelling OPSL Notes

Use the following procedure to cancel an OPSL Note:

1. Select **OPSL Notes > Search OPSL Notes**. The OPSL Notes Search page is displayed. Search for the OPSL Note that you want to amend (see [Searching OPSL Notes](#)).
2. Select the **OPSL Note No** link to view its full details. The OPSL Note Details page is displayed.
3. Select **Cancel**. A pop-up box displays asking for you to specify the reason for canceling the OPSL Note ([Exhibit 102](#)).

Exhibit 102. Cancel OPSL Note Reason

4. Enter a reason for canceling the note. Select the **Cancel OPSL Note** button. A message is displayed letting you know that the OPSL Note has been cancelled ([Exhibit 103](#)).

Exhibit 103. OPSL Note Successfully Cancelled

Accepting the Annual Renewal of OPSL Notes

Renewal reminder email notifications are sent to the issuer of OPSL Notes starting seven days before the one-year anniversary of its creation. These reminders allow the issuer to review the OPSL Note to ensure it remains accurate. Emails are sent each day until the anniversary date but aren't sent after that time. In response to receiving a notification email, the application allows you to review the OPSL Note and accept it if remains valid. This stops the sending of emails until the following year.

Use the following procedure to accept the annual renewal of an OPSL Note:

1. From the received notification email, select the link to the embargo application and login ([Exhibit 104](#)).

Exhibit 104. OPSL Note Annual Renewal Reminder Email

OPSL Note #CSXTAE0345 is reaching its 1 year anniversary date since creation. If OPSL Note is still valid, you need not reply. If OPSL Note is no longer valid, please contact Railinc OPSL Note Support. You will continue to receive an email notification until the OPSL Note has reached its anniversary date.

In order to no longer receive an email notification for the current anniversary, please login to the AAR Embargo Notes and Permit System (link below), and click Accept at the bottom of the OPSL Note.

AAR Embargo/OPSL Notes And Permit System (<https://embargo.tst.railinc.com/epdb>)

2. Find the specific OPSL Note (**OPSL Notes > Search OPSL Notes**).
3. From the Search OPSL Note Results page, select the hyperlink of the displayed OPSL Note to view its details. The OPSL Note Details page is displayed.
4. Review the OPSL Note to ensure that it remains accurate. If so, scroll to the bottom of the displayed note and select the **Accept** button.

Viewing Pending/Draft/Rejected OPSL Notes

Use the following procedure to view pending, draft, and rejected versions of OPSL Notes:

1. Select **OPSL Notes > View Pending OPSL Notes**. The View Pending OPSL Notes page is displayed ([Exhibit 105](#)).

2. By default, pending OPSL Notes are displayed. To view draft, rejected, or all OPSL Notes of these statuses, use the Status Filter drop down.
3. To view the details of a listed OPSL Note, select the **OPSL Note No** link of one listed. The OPSL Note Details page is displayed.
4. To complete and issue a draft or pending OPSL Note, select the **Edit** button. The fields become available for inputs and edits. Complete and edit the fields as needed.

5. To complete the issuing process, select the **Issue OPSL Note** button (see [Issuing OPSL Notes](#)). Select **Save Draft** to save any edits but not issue the OPSL Note.

Cloning OPSL Notes

Use the following procedure to clone OPSL Notes:

1. Select **OPSL Notes > Search OPSL Notes**. The OPSL Notes Search page is displayed.
2. Select the **OPSL Note No** link for the one you want to clone. The OPSL Note Detail page is displayed. See [Issuing OPSL Notes](#) for field details.
3. Select the **Clone** button. The Issue Restricted Movement OPSL Note page is displayed with fields pre-filled with information from the selected OPSL Note ([Exhibit 81](#)).
4. Complete and/or modify the input fields as needed. Select the **Issue OPSL Note** button to issue the cloned OPSL Note.

Exporting OPSL Notes as XML

Use the following procedure to export an OPSL Note in XML format:

1. Select **OPSL Notes > Search OPSL Notes**. Perform a search for the OPSL Notes that you want to export as XML. The Search Embargo Results page is displayed.
2. Select the **OPSL Note No** link of the Note that you want to export in XML. The OPSL Note Details page is displayed.
3. Select **Export As XML**. A pop-up box is displayed asking if you want to save or open the file.
4. Select the application that you want to use to open the XML file or browse to the location where you want to save the output file.

Printing OPSL Notes

Use the following procedure to print an OPSL Note:

1. Select **OPSL Notes > Search OPSL Notes**. Perform a search for the OPSL Note that you want to print. The Search OPSL Note Results page is displayed.
2. Select the link of the listed OPSL Note that you want to print. The OPSL Note Detail page is displayed.
3. Select the **Printable View** button. A print-ready version of the OPSL Note is displayed ([Exhibit 106](#)).

Create OPSL Note Template

- Complete the available described fields:
 - Template Name:** Unique name for the template (must be unique across road).
 - Template Description:** Description for the template.
- See [Issuing OPSL Notes](#) for a description of all other fields.
- Select **Create OPSL Note Template**. A message is displayed letting you know that the OPSL Note template has been saved ([Exhibit 108](#)).

Exhibit 108. OPSL Note Template Successfully Created

Viewing and Applying OPSL Note Templates

Use the following procedure to view and apply OPSL Note Templates:

1. Select **OPSL Notes > View OPSL Note Templates**. The View OPSL Note Templates page is displayed ([Exhibit 109](#)).

Railine administrators can indicate a Primary Officer or add Notes (such as additional contact information) about the displayed OPSL Note Officers.

If you are a Railine administrator, select **Save Changes** to save any changes; select **Clear** to clear any changes made without saving changes. Otherwise, select **Cancel** to exit the page.

Managing OPSL Note Permits

When you select **OPSL Note Permits** on an AAR Embargo System page, the OPSL Note Permits menu is displayed ([Exhibit 113](#)).

Exhibit 113. OPSL Note Permits Menu

[Exhibit 114](#) describes the tasks available on the OPSL Note Permits menu.

Exhibit 114. OPSL Note Permits Menu Items and Descriptions

Menu Item	Description
Request Permit	Enables you to request a permit to bypass an OPSL Note.
Search Permit Number	Enables you to search for and view any issued OPSL Note permit for which you have the permit number regardless of status.
Search Permits	Enables you to search and view all issued OPSL Note permits.
Search Permit Requests	Enables you to search permit requests of different statuses.
Admin Permit Create	Enables a Railinc Administrator to issue a permit for an OPSL Note.
Search OPSL/Permit Officers	Enables you to search for OPSL and permit officers for all marks.

Requesting OPSL Note Permits

Use the following procedure to request a new OPSL Note Permit:

1. Select **OPSL Note Permits > Request Permit**. The Create Permit Request page is displayed ([Exhibit 115](#)).

Exhibit 115. Create Permit Request

Create Permit Request

Instructions:

After submission of your request, for issues with permits/ obtaining permit numbers, please contact the permit officer(s) for the issuing road. To access a listing of railroad permit officers, please select Permits drop down and choose Search Officers option.

2. Complete the available input fields:

Field	Description
*Permit(s) for OPSL Note	Enter the OPSL Note for which you want to request a permit. An OPSL tariff note number is 10 characters in length and consists of the following components: - Issuing railroad road mark - OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. 4-digit Tariff Note item number Here is an example of a tariff note number: BNSF – AB – 3200
*Priority	Select the priority (High, Medium, or Low).

Field	Description
*Reason	Free-form reason for the permit.
*Number of Permits Needed	Enter the number of permits required.
Requested Permit Start date	Must be equal to or after associated OPSL Note start date; must be prior to associated OPSL Note end date; must be prior to requested end date.
Requested Permit End Date	Default is calculated as 60 working days after start date or set as the associated OPSL Note end date, whichever comes first; may not be equal or prior to requested start date; may not be prior to associated OPSL Note start date; may not be after associated OPSL Note end date.
Shipper CIF	One per permit request; if Shipper CIF(s) are specified in the associated embargo, then the entered CIF must be one of those specified.
Consignee CIF	One per permit request; if Consignee CIF(s) are specified in the associated embargo, then the entered CIF must be one of those specified.
Origin FSAC	Origin Freight Station Accounting Code. Enter Roadmark and then FSAC number.
Destination FSAC	Destination Freight Station Accounting Code. Enter Roadmark and then FSAC number.
*Free-form Commodity	Multiple commodities are allowed per permit. If a STCC is specified in the associated embargo, the entered STCC must be one of those specified. Free-form text is allowed. You may enter STCC code(s) or description(s).

3. Select **Submit** to submit the permit request.

Searching OPSL Note Permits

Searching OPSL Note Permit Requests

Use the following procedure to search OPSL Note Permit Requests:

1. Select **OPSL Note Permits > Search Permit Requests**. The Search Permit Requests page is displayed ([Exhibit 119](#)).

Exhibit 119. Search Permit Requests

The screenshot shows a web form titled "Search Permit Requests" with a red header. The form contains four input fields: "OPSL Note No" (text), "OPSL Note Issued By" (text with a search icon), "Start Date" (calendar icon), and "End Date" (calendar icon). Below these fields is a "Permit Status:" section with four radio button options: "All", "Approved", "Rejected", and "Pending". The "Pending" option is selected with a blue checkmark. At the bottom right of the form are two buttons: "Cancel" (light gray) and "Search" (blue).

- Complete the available input fields:

Field	Description
OPSL Note No.	Enter the OPSL Note for which you want to search for a requested permit. An OPSL tariff note number is 10 characters in length and consists of the following components: - Issuing railroad road mark - OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. 4-digit Tariff Note item number Here is an example of a tariff note number: BNSF – AB – 3200
OPSL Note Issued By	Road mark that created the OPSL Note. Select the search icon to open the Roadmark Lookup page.
Permit Status	List of possible permit request statuses available for selection; multi-selection is allowed.

- Select **Search**. The Search Permit Request Results page is displayed ([Exhibit 120](#)). Permit requests that are highlighted in yellow are high priority.

Exhibit 120. Search Permit Request Results

 The search results are limited to 30 days due to the search criteria chosen. Please refine your search criteria for more relevant results.

2. Complete the available input fields:

Field	Description
* Permits for OPSL Note	Enter the OPSL Note for which you want to issue a permit. An OPSL tariff note number is 10 characters in length and consists of the following components: • Issuing railroad road mark • OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. • 4-digit Tariff Note item number Here is an example of a tariff note number: BNSF – AB – 3200

AAR Embargo/OPSL Notes and Permit System User Guide

117

Revised July 2026

Field	Description
* Number of Permits Needed	Enter the number of permits required.
Railinc Generated Permit Number(s)	If checked, Railinc assigns a random alpha-numeric Permit Number. If not checked, a text box appears allowing you to assign your own Permit Numbers. Separate multiple entries by commas.
Number of Permits Allowed Per Day	This field automatically populates with the Number of Permits Needed but can be changed to a lesser number.
Permit Start Date	Must be equal to or past the associated OPSL Note start date; must be prior to the associated OPSL Note end date; must be prior to the requested end date.
Permit End Date	Default is calculated as 60 working days after the start date or set as the associated OPSL Note end date, whichever comes first; may not be equal to or prior to the requested start date; may not be prior to the associated OPSL Note start date; may not be after the associated OPSL Note end date.
Include All Embargoed STCCs	An OPSL Note must be entered in the Permit(s) for OPSL Note field before this feature is active. Toggle on (blue) this feature to import all the STCC commodities associated with the embargo. The form does not allow duplicate STCCs to be added to the list if this toggle is turned off and on again. Select the Permit These STCC Commodities field to edit or delete the STCCs.
Permit These STCC Commodities	Multiple STCCs are allowed per permit; if STCC(s) are specified in the associated OPSL Note, then the entered STCC must be one of those specified. Specify a range of STCC numbers by entering the beginning STCC, then a dash (-), then the ending STCC in the range.

3. Select the **Submit** button. The system sets the status of the request to **Pending** and stores the request as an OPSL Note permit request. Permit requests have a status of **Pending** until the permit officer either approves or denies the request, as long as the OPSL Note is effective.

Searching for OPSL Note Permit Officers

Use the following procedure to search for OPSL Note Permit Officers:

1. Select **OPSL Note Permits > Search OPSL Note/Permit Officers**. The View Railroad OPSL Note and Permit Officers page is displayed ([Exhibit 71](#)).

The Search Permit Officers Results page enables you to view the names, phone numbers, and email addresses for OPSL Note Permit Officers. Select **Cancel** to exit the page.

Profile Dashboard

Users with the Embargo Party to the Waybill role can create Embargo profiles that provide a list of embargos that can be used to set up notifications for pre-determined criteria like location, equipment types and the commodity being shipped.

Users with this role have access to the **Dashboard** menu item.

Creating Profiles

When you select **Dashboard** from the main menu, the Embargo Profile Dashboard is displayed. Initially, it will be empty until one or more profiles are created.

Exhibit 127. Embargo Profile Dashboard

Creating a profile will automatically open the embargos that you’re interested in viewing in the Dashboard. You can set up as many profiles as you want.

Use the following procedure to create one or more profiles of embargos that you want to view on a regular basis:

1. From the Embargo Profile Dashboard, select the **Create Profile** button. The Create Embargo Profile page is displayed.

2. Enter the **Embargo Profile Name**. This field is required. Determine the types of criteria you want to be notified about.
3. You have the option to exclude one or more target types like Commodity, Customer Name/Waybill Party, Umler Equipment Type Code and/or Geography by selecting the checkbox.
4. Select **Mark as Default Profile** to make this the default profile that automatically opens when you select Dashboard menu item. You will be prompted to select this for your first profile, but you can change your default at any time when more than one profile has been set up.
5. Use the search icons as needed to drill down in your search for various criteria. To search for a specific equipment type in the **Umler Equipment Type Code** section, choose **Equipment Type Groups**.
6. Certain fields have entry limits:
 - a. For **Commodity**, **Customer Name/Waybill Party** and **Umler Equipment Type Codes**, enter up to 10 values
 - b. For **Geography Station**, enter up to 120 characters
 - c. For **Geography State/Province**, enter up to 10 states
 - d. For **Geography Interchange**, enter up to 170 characters
7. Select **Save**. The results of the profile are displayed.

11. Some columns like **Commodity** may have a plus sign (+) after some values to indicate additional values. You can view all values by downloading the results. Select the **Download** icon and select to save your search results as a CSV or Excel file.

12. When there are two or more pages of results, use the arrows in the bottom right to page through all the results.
13. Select a link in the **Embargo/OPSL Note No** column to view its full details. The Embargo or OPSL Note Details page is displayed.

Editing/Deleting Profiles

Use the following procedure to edit or delete a dashboard profile:

1. From the Embargo Profile Dashboard, select the **Edit/Delete Profile** button. The Edit Embargo Profile page is displayed.
2. To delete the profile, select **Delete** at the bottom of the page.
3. To edit the profile, make the appropriate updates and select **Save** at the bottom of the page.
4. To return to the dashboard without making updates, select **Cancel**.

Creating Notifications

From the Embargo Profile Dashboard page, select an **Embargo Profile** that has information that you would like to subscribe to. Select the **Create Notification** button and the data from your profile will auto-populate some of the data fields. See [Creating Subscriptions \(for yourself\)](#) for details.

Using Administrative Tools

When you select **Tools** on an AAR Embargo System page, the Tools menu is displayed ([Exhibit 130](#)).

Exhibit 130. Tools Menu

[Exhibit 131](#) describes the tasks available on the Tools menu.

Exhibit 131. Tools Menu Items and Descriptions

Menu Item	Description
Contact	Enables you to create and search for Embargo and OPSL Notes system-specific contacts to be notified in the event of a new or updated embargo or OPSL Note.
Geographic Templates	Enables you to create and view templates that can be used as shortcuts when creating embargoes or OPSL Notes with common origins and/or destinations.
Subscriptions	Enables you to set up subscriptions to be notified in the event of a new or updated embargo or OPSL Note.
Audit Logs	Enables you to search and view the audit logs of embargo, permit, or OPSL Note transactions.
EDI 824 Viewer	Enables you to view the details of EDI 824 messages up to 90 days old.
View EDI 824 Error Codes	Enables you to view a list of EDI 824 error codes and descriptions.

The following table lists all of the functions detailed in this section.

Function	Who Can Perform
Creating Geographic Templates	Embargo and OPSL Officers
Viewing and Editing Geographic Templates	Embargo and OPSL Officers
Creating FTP Profiles	Railinc Administrators only

Function	Who Can Perform
Viewing and Editing FTP Profiles	Railinc Administrators only
Searching Audit Logs from the Tools Menu	Embargo and OPSL Officers
Viewing, Editing and Deleting My CIF Synonyms	Embargo Officers and OPSL Note Officers only
Creating CIF Synonyms	Embargo Officers and OPSL Note Officers only
Viewing Synonyms Created For All Roads	Embargo Officers and OPSL Note Officers only
View Amendment Reasons	Railinc Administrators only
Viewing EDI 824 Messages	Embargo and OPSL Officers
Viewing EDI 824 Error Codes and Descriptions	Embargo and OPSL Officers

Working with Contacts

This section describes how to create a contact for your mark to use with AAR Embargo System subscriptions so that they are notified when an embargo or OPSL Note is created or updated. See [Creating Contacts](#).

As described in [Searching Contacts](#), you can also search for existing Embargo and OPSL Notes system-specific contacts.

See [Working with Subscriptions](#) for more information about subscriptions.

Creating Contacts

Use the following procedure to create a contact:

1. Select **Tools > Contact > Create Contact** on the main navigation menu. The Create Contact page is displayed ([Exhibit 132](#)).

Search

2. Complete the available input fields. Select to search for AAR Security, Non-AAR Security, or both types of contacts. Select the **Search** button. The Search Contact Results page is displayed.
3. Select the name of a listed contact to view, edit or delete that person's contact information. The Contact Details page is displayed for the selected individual.
4. Select one of the following actions:

Printable View Displays a print-ready version of the selected contact.

Return Returns to the contact search results.

Edit	Edits the displayed contact. The Edit Contacts page is displayed. Make the necessary edits and then select Save . If you did not originally create the contact, you receive a “not authorized” message.
Delete	Deletes the displayed contact. A message appears informing you that the contact has been deleted.
Cancel	Closes the Contact Details page.

Working with Subscriptions

This section describes how to subscribe to and view AAR Embargo System notifications.

You can create a subscription for your individual SSO ID. See [Creating Subscriptions \(for yourself\)](#).

You can create a subscription for other contacts and agencies associated with a specific road mark. As a party to the waybill, shippers can create a subscription for their agency. See [Creating Subscriptions \(for contacts/agencies\)](#).

You can also view subscription information either for yourself or for other contacts/agencies associated with the selected road mark. See [Viewing Subscriptions](#) for more information.

Creating Subscriptions (for yourself)

Use the following procedure to create a subscription for yourself:

1. Select **Tools > Subscriptions > Create Subscription** on the main navigation menu. The Select Subscription Type page is displayed ([Exhibit 135](#)).

AAR Embargo/OPSL Notes and Permit System User Guide

129

Revised July 2026

Field	Description
Notify on All Conditions	Check this box if contact is to receive notifications pertaining to all embargo conditions. If this option is selected, then all other options are removed (Exhibit 137). Deselect and the full page is displayed.

Exhibit 137. Notify on All Conditions

The screenshot shows a web form titled "Create Subscriptions for" with a red header bar. Below the title is a "Description" field. The "Delivery Type" is set to "Email". The "To:" field is empty. The "CC (Use comma to separate distinct email addresses):" field is empty. The "Subscribe To:" section has three radio buttons: "Embargo" (selected), "OPSL Note", and "Both". The "Notify on All Conditions:" checkbox is checked. The "Delivery Format:" dropdown is set to "Formatted Text". At the bottom right are "Cancel" and "Issue Subscription" buttons.

Embargoes	Select the option to receive AAR Security Embargoes Only , Non-AAR Security Embargoes Only , or Both for both security and non-security embargo types.
Permits	Select to subscribe to only those embargoes that allow permits, those do not allow permits or select Both to subscribe to both types.
Events to Notify	Check the appropriate box(es) to receive email notification for the specified embargo status.
Issuing Road Section	Default displays to subscribe for all road marks. To subscribe for selected road marks, select the labeled radio button. Enter selected road marks or select the search icon next to the text box to open the Roadmark Lookup page.
Commodity Section	Default value to embargo all commodities. Embargo Select Commodities: Use this option to embargo only specific commodities. Use the available input field to specify the 7-digit STCC(s) with a comma separating multiple entries. Select the search icon to search for STCCs.
Cause Section	Default display is to subscribe for all causes. Select Subscribe for Select causes , and then select specific causes from the available drop-down box to receive email notifications for only those specified causes.
Geography Section	Default display is to Subscribe for All Locations. Or select Subscribe for Select Locations to categorize the FSACs and/or Junctions as To, From and/or Via. To lookup FSACs and Junctions, select the search icon next to the appropriate FSAC or Junction text box. The FSAC or Junction Lookup page is displayed.

Field	Description
Equipment Section	Default is to embargo all equipment types. The other selection is to embargo only select Equipment Types. To lookup equipment types, select the search icon next to the text box. The Equipment Type Lookup page is displayed.
Clearance Code	The default selection is no clearance code. If desired, select the appropriate code from the drop down.
Total Weight on Rail	The default selection is no Weight Restrictions; if desired, select Equal to or Greater than from the drop-down. This opens the weight quantity field for the selection of weight (Exhibit 138). If Other is chosen, a field is opened to input the weight.

Exhibit 138. Total Weight on Rail

The screenshot shows a form for 'Total Weight on Rail'. It includes a dropdown menu with the following options: '- Select a Quantity -' (with a checkmark), '210000', '263000', '275000', '286000', '315000', and 'Other'. Below the dropdown, there is a label 'Total Weight on Rail:', a dropdown menu with 'Greater than' selected, and another dropdown menu with '- Select a Quantity -' selected. The unit 'lbs.' is shown to the right of the second dropdown.

Waybill Party Section	In the Waybill Parties section, the default is Embargo all Patrons. If specific Patrons/Waybill Parties are desired, select Embargo on Select Patrons and additional boxes appear.
------------------------------	--

Select a Waybill Party from the drop-down.

Enter a CIF Number; or, to lookup a CIF Number, select the search icon to open the Patron CIF Lookup page.

4. Select **Issue Subscription**. The View Subscription page is displayed along with a message that the subscription has been successfully created.
5. Select **Edit** if you need to edit the displayed subscription; select **Cancel** if finished.

Creating Subscriptions (for contacts/agencies)

Use the following procedure to create a subscription for other contacts and agencies associated with a specific road mark:

1. Select **Tools > Subscriptions > Create Subscription** on the main navigation menu. The Select Subscription Type page is displayed ([Exhibit 139](#)).

Exhibit 139. Select Subscription Type

The screenshot shows a web form titled "Select Subscription Type for Create". Below the title is a section labeled "Subscription for:" with three radio button options. The first option is "another registered user" with an empty text box next to it. The second option is "contacts/agencies associated with roadmark" with a dropdown menu next to it showing "UP". The third option is "yourself". A blue "Continue" button is located at the bottom right of the form.

Working with Geographic Templates

A geographic template enables you to create templates that can be used as shortcuts when creating embargoes or OPSL Notes with common origins and/or destinations.

Creating Geographic Templates

Use the following procedure to create a geographic template:

1. Select **Tools > Geographic Templates > Create Template**. The Create Geography Template page is displayed ([Exhibit 145](#)).

Exhibit 145. Create Geography Template

2. Enter a unique **Template Name** and **Template Description**. Specify the **Issuing Road**.
3. Enter three or more **FSACs** or **Junction Codes**. Select the associated search icons to look up either FSAC or Junction codes.
4. Use the **Origin/Destination** fields to specify a range of locations.
5. Select **Save** to save the created geographic template or select **Cancel** to cancel the process. A message appears letting you know that the geographic template has been saved ([Exhibit 146](#)).

Exhibit 146. Geographic Template Success Message

Viewing and Editing Geographic Templates

Use the following procedure to view and edit a geographic template:

Using Administrative Tools

1. Select **Tools > Geographic Templates > View Templates**. The View Geography Templates page is displayed ([Exhibit 147](#)).

Exhibit 147. View Geography Templates

Template Name	Template Description	Creation Date
Richmond Interchange	Restricted Interchange from NS	05-27-2008

2. Select the **Template Name** link that you want to view. The Geography Template Details page is displayed ([Exhibit 148](#)).

Exhibit 148. Geography Template Details

ORIGIN	DESTINATION	Bi-Directional
CSXT-10001		N

Origin Road	Interchange	Destination Road
NS	RICH - RICHMOND, VA	CSXT

3. Perform one of the following actions:
 - a. Select **Edit Geography Template** to edit the geography template (see [Creating Geographic Templates](#) for field descriptions).
 - b. Select **Delete Geography Template** to delete the displayed geography template.

Note: You can only delete geographic templates that belong to your road. If the selected geography template is referred to by any embargo template, then the delete action is not allowed. You must remove the geography template from the embargo template first and then delete the geography template.

- c. Select **Return** to return to the list of geography templates.

Working with FTP Profiles

Only Railinc Administrators have access to this function.

The FTP Profile determines how routing information is transmitted.

Creating FTP Profiles

Only Railinc Administrators have access to this function.

Use the following procedure to create FTP profiles:

2. Use the Select a Function to View Logs drop-down to select the type of audit log that you want to view (Embargoes, OPSL Notes, or Permits). The displayed input fields change depending on which type of audit log you select.

Here are the input fields for embargo audit log search:

Field	Description
Embargo Number	10-character, system-generated identifier for created embargoes that consists of the following components: ▪ Issuing railroad road mark ▪ 4-digit sequence number starting with 0001. The sequence number is reset to 0001 at the beginning of a new year ▪ 2 digits for year Here is an example of an embargo number: BNSF011102
Change Made by	Specify the user name of the individual for whom you are looking for audit log records.
From Date/To Date	Specify date range for the audit log records that you want to search.

This input field differs for OPSL Notes audit log search:

OPSL Note No.	An OPSL tariff note number is 10 characters in length and consists of the following components: ▪ Issuing railroad road mark ▪ OPSL issue indicator; the second digit of the alpha code is incremented by the next letter of the alphabet for each year. “AB” equals the 2007 edition, “AC” equals the 2008 edition, and “AJ” equals the 2015 edition. ▪ 4-digit Tariff Note item number Here is an example of a tariff note number: BNSF – AB – 3200
----------------------	--

These input fields differ for a Permit audit log search:

Permit Number	Permit numbers are 10 characters in length and consist of a randomly generated combination of letters and numbers (for example, A887659944).
Permit Request Number	Random system-generated number assigned to permit request.

3. Select the **Search** button. The Search Audit Logs Results page is displayed ([Exhibit 153](#)).

4. Select a listed Embargo Number to view its details. Select **Return** to return to the Embargo Details page. Select **Printable View** to view a print-ready version of the audit log results.

Working with CIF Synonyms

Only users with Embargo Officer or OPSL Note Officer permission have access to use synonyms.

CIF synonyms provide Embargo Officers and OPSL Note Officers with the ability to better control traffic movements when restrictions are warranted.

Viewing, Editing and Deleting My CIF Synonyms

Only users with Embargo Officer or OPSL Note Officer permission have access to view, edit and delete CIF synonyms. To view synonyms created for all roads, see [Viewing Synonyms Created For All Roads](#).

Use the following procedure to view, edit or delete CIF synonyms from the Tools menu:

1. Select **Tools > CIF Synonym Table > My Road's CIF Synonyms**. The My Road's CIF Synonyms page is displayed.
2. Enter the mark for the road you represent in the **Road** field to view your road's synonyms.

Exhibit 154. My Road's CIF Synonyms

- To filter on a column, either enter criteria into the field below a column header or select the filter icon and use the drop-down list to select how you want to filter on the content and enter your filter criteria. Select the **Clear Filters** button to clear all filters.
- Select the **Download** icon and select to save your search results as a CSV or Excel file.
- When there are two or more pages of results, use the arrows in the bottom right to page through all the results.
- To create a new synonym, select **Create New Synonym** and follow the steps in [Creating CIF Synonyms](#).
- To edit an existing synonym, select inside the cell and update the text. Once you've made updates to one or more synonyms, select **Save**. All officers from the road entered will receive an email alerting them of the update.
- To delete one or more existing synonyms, select **Delete**. A confirmation pop-up will ask you if you are sure that you want to delete the selected synonym(s). Select **Yes** to delete the synonym(s) or **No** to return without deleting. All officers from the road entered will receive an email alerting them of the delete.

Creating CIF Synonyms

Only users with Embargo Officer or OPSL Note Officer permission have access to create CIF synonyms.

Use the following procedure to create a new synonym from the Tools menu:

1. Select **Tools > CIF Synonym Table > Create New Synonym**. The Create New Synonym page is displayed. Your road is automatically entered.

Exhibit 155. Create New Synonym

Create New Synonym

Enter each synonym on a separate line

Cancel Save

2. Enter a **CIF** number. Use the search icon and enter a **Patron** name or **CIF** number to search and select a checkbox and select the **Select** button. The selected CIF is added to the page.
3. Select the + plus sign to add additional CIF numbers and use the delete icon to remove them.
4. Enter one or more synonyms into the box on the right, each on a separate line.
5. Select **Save** to save the synonym(s). The My Road's CIF Synonyms page displays, and the new synonym appears in the list for the road.

Viewing Synonyms Created For All Roads

Only users with Embargo Officer or OPSL Note Officer permission have access to view synonyms that were created for all roads.

Use the following procedure to view synonyms created for all roads from the Tools menu:

1. Select **Tools > CIF Synonym Table > View Synonyms**. The View Synonyms page is displayed.

Exhibit 156. View Synonyms

EDI 824 All Clear Messages

If a waybill has been called in that received an 824 hold, and if within 21 days the embargo is amended, canceled or expired, the 417 is reevaluated to see if the embargo still applies to it and if there are no holds from any embargo, then an 824 All Clear Message is sent out (900000000GA).

Viewing EDI 824 Messages

The AAR Embargo System receives waybill information via EDI 417 messages from the [Forward and Store](#) application. The AAR Embargo System analyzes the waybill to determine if there are any active embargoes or OPSL Notes associated with waybill parameters. If there are active embargoes or OPSL Notes that apply to the waybill, the AAR Embargo System sends an EDI 824 message back to the billing road or the sender of the EDI 417/waybill about the existence of an embargo or OPSL Note. If any railroad makes an update to a waybill, all railroads on the waybill will receive a message with details about the update.

There are a variety of error codes that can be contained in an EDI 824 message. These error codes are described in [Viewing EDI 824 Error Codes and Descriptions](#).

Use the following procedure to access the EDI 824 Viewer. Records are displayed back 90 days from the present.

1. Select **Tools > EDI 824 Viewer**. The Search Outbound 824 Messages page is displayed ([Exhibit 160](#)).

2. Use the scroll bar to view the full list of error codes.
3. Select **Cancel** to close the EDI 824 Error Codes and Descriptions page.

Appendix A. User Access Rights

The AAR Embargo System is structured to provide different levels of access to users depending on their assigned roles. The following list identifies the existing roles and their associated privileges.

Public – anyone who visits the site without logging in

- Search and view security embargoes
- Search and view embargoes and OPSL notes
- Search and view embargo officers and OPSL note officers

Party to Waybill – any valid party to the waybill

- View all the fields in a security embargo
- Search and view embargoes and tariff notes
- Embargo permits (request, view, edit own permit requests)
- OPSL note permits (request, view, edit own permit requests)
- View embargo and permit officers
- View OPSL and permit officers
- Subscribe to embargo and OPSL note notifications
- Access to Embargo Profile Dashboard

Embargo Officer – embargo officer of a road

- View all the fields in a security embargo
- Search and view embargoes and OPSL notes
- Issue (request for) and maintain non-security embargoes on behalf of his/her road (issue, amend, cancel, reissue, view, clone, export, print)
- View audit log
- View journal
- Create/view embargo templates
- Create/view geographic templates
- View embargo/OPSL note and embargo/OPSL note permit officers
- Subscribe to embargo and OPSL note notifications
- View subscriptions
- Maintain a list of contacts to be notified when an embargo or OPSL note is issued
- Create a CIF Synonym for my road

OPSL Note Officer – OPSL note officer of a road

- Search and view embargoes and OPSL notes
- Issue (request for) and maintain OPSL notes on behalf of his/her road (issue, amend, cancel, reissue, view, clone, export, print)
- View audit log
- View journal
- Create/view OPSL note templates
- Create/view geographic templates
- View embargo/OPSL note and embargo/OPSL note permit officers
- Subscribe to embargo and OPSL note notifications
- View subscriptions
- Maintain a list of contacts to be notified when an embargo or OPSL note is issued
- Create a CIF Synonym for my road
- Create and view synonyms

Embargo Permit Officer – Permit Officer of a Road

- View all the fields in a security embargo
- Search and view embargoes and OPSL notes
- Request permits
- Search permit requests
- Accept/reject and cancel permit requests for authorized roads
- View, create, export non-security permits for authorized roads
- Admin permit create for authorized roads
- View security permits for authorized road
- View audit log
- View/search embargo/OPSL note and embargo/OPSL note permit officers

OPSL Notes Permit Officer – OPSL Note Permit Officer of a road

- View all the fields in an OPSL note
- Search and view embargoes and OPSL notes
- OPSL Notes Permit Officer can only act on permits from its own road (approve, create, reject, cancel, request)
- View/request OPSL note permits
- View OPSL note permit requests
- Edit own OPSL note permit requests (clone, export, import, print)

- View audit log
- View embargo/OPSL note officers
- Search permit requests
- Admin permit create for OPSL note permits for authorized roads
- View security permits for authorized road
- View/search embargo OPSL note and embargo/OPSL note permit officers

Appendix B. Embargo/Waybill Evaluation Guidelines

In the following pages are business rules regarding the AAR Embargo System. These rules provide 417 evaluation information and processes for the AAR Embargo System. Please refer to the Rail Industry Transportation Guidelines specifically the 417 Rail Carrier Waybill Interchange and the Rail Front Matter for more information.

Shipment Qualifier

Shipment Qualifier is the code defining the relationship of this shipment with respect to other shipments given to the carrier at the same time.

For element BX07 of the waybill, valid Shipment Qualifiers are:

- **W** or **8** when the embargo has **Include Empty Revenue Cars** selected.
- **1**, **E**, **X**, **W** or **8** if the embargo has **Include All Empty Cars** selected.

Shipment Qualifier descriptions:

- **1** – Master Bill for Empty Non-Revenue Equipment
- **E** – Empty Equipment Billing (Non-Revenue)
- **X** – Empty Switch Waybill
- **W** – Revenue Empty
- **8** – Master Bill, Revenue Empty

Rate Indicator

The equipment's Rate Indicator (A070) is evaluated to determine if the equipment is railroad owned or operated when the embargo Cause code is either **Congestion/Accumulation**, **Congestion/Accumulation – Customer Caused** or **Congestion/Accumulation – Railroad Caused**, and the equipment is **Non-Revenue Empty**. For more information on rate indicators, see the [Umler Data Specifications Manual](#).

If the Shipment Qualifier in the BX07 element of the waybill is **1** or **E** and **Include All Empty Cars**, and the Rate Indicator equals **4**, **B**, **M**, **P** or **Q**, then the equipment is considered railroad owned or controlled, and No 824 Hold notification is delivered.

Railroad Owned/Operated (No 824 or Hold Notification generated) descriptions:

- **4** – Private Car Owner Designated Rate (i.e., TTX leased car)
- **B** – Railroad Class III Boxcar Sub19 Rate
- **M** – Railroad Market Rate
- **P** – Zero-Rated Railroad Class III Boxcar Sub19 Rate

- **Q** – Zero-Rated Railroad Market Rate Due to Conflict Errors

Non-Railroad Owned/Operated (824 or Hold notification generated) descriptions:

- **0** – Zero-Rated Due to Conflict Errors
- **2** – Private Mileage Rate
- **6** – Private Car Owner Designated Rate

Non-Intermodal Logic

When the AAR Embargo System receives a waybill, it looks at the N101 element and the values of **SH** (Shipper), **CN** (Consignee), **C1** (Care of Party), **SF** (Ship From Party), **PU** (Pick up party).

If BX02 does not equal **X** (i.e., not intermodal), then either an Origin Patron Type or a Destination Patron Type must match what is targeted by the embargo:

- Valid **Origin Patron Types** are **PU**, **SF**, and **SH**.
 - If **PU** or **SF** is on the waybill and matches against an embargo, ignore **SH**, **C1**, and **CN**. If all other embargo criteria match, generate an 824.
 - If **PU** or **SF** is on the waybill and does not match against an embargo, evaluate Destination types - ignore **SH**.
 - If **PU** or **SF** is not on the waybill at all, compare any **SH** on the waybill against embargo.
 - If **SH** is on the waybill and matches against an embargo, ignore **C1** and **CN**. If all other embargo criteria match, generate an 824.
 - If **SH** is not matched against an embargo or is not on the waybill at all, evaluate Destination types.

OR

- Valid **Destination Types** include **C1**, and **CN**.
 - If **C1** is on the waybill and matches against an embargo, ignore **CN**. If all other embargo criteria match, generate an 824.
 - If **C1** is on the waybill and does not match against an embargo, compare any **CN** on the waybill for a match on the embargo. If **CN** and all other embargo criteria match, generate an 824.
 - If **C1** is not on the waybill at all, compare any **CN** on the waybill for a match on the embargo. If **CN** and all other embargo criteria match, generate an 824.

Intermodal Logic

If BX02 equals **X** (i.e., intermodal), compare ANY CIF + Patron Type (**PU**, **SF**, **SH**, **C1**, **CN**) on the waybill for a match on the embargo.

824 Hold Notification Distribution

Below is a chart that gives a walkthrough of the process the AAR Embargo System follows to determine if an 824 or Hold Notification is distributed.

Exhibit 164. EDI 824 Flowchart

Appendix B. Embargo/Waybill Evaluation Guidelines

*An Origin Embargo is when the 417 matches only on Origin. In this case, only the Origin Road in the route needs to receive the 824.

**A Destination Embargo is when a 417 matches on the Destination or Junction. If the 417 matches on both the Origin and Destination, it is also considered a Destination Embargo. All roads in the route will receive an 824.

***A Participating Road is a road other than the Issuing Road, that has added their stations to the embargo.

Glossary

AAR—Association of American Railroads

ARB—Arbitration and Rules Committee

Car Hire—Car Hire is a usage charge paid to car owners by railroads for the use of freight cars and appurtenances.

CBA—Counter Billing Authorities

CRB—Car Repair Billing Committee

Damaged Car—A damaged car is one governed by Interchange Rule 107. Such cars are badly damaged or destroyed.

Defective Car—A defective car is one governed by Interchange Rule 108. Such cars require general repairs in excess of 36 hours including trucks or 25 hours excluding trucks.

DV—Depreciated Value

EOT Device—End of Train Device

FSAC—Freight Station Accounting Code

ICD—Interchange Delivery

ICR—Interchange Receipt

JIC—Joint Inspection Certificate

LCS—Liability Continuity System

RCH—Railroad Clearinghouse

SPLC—Standard Point Location Code

Umler—formerly the Universal Machine Language Equipment Register [UMLER]
